CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the board of directors (the "**Board**") of Feiyang International Holdings Group Limited (the "**Company**") and its subsidiaries (collectively, the "**Group**"), I am pleased to present the annual report of the Group for the year ended 31 December 2021 (the "**Year**"). The Group is a well-established travel service provider based in Ningbo, Zhejiang Province of the PRC and offers diversified products that cater for different travellers' needs.

BUSINESS

The unexpected outbreak of COVID-19 has plunged the tourism industry into unprecedented challenges since 2020. Pursuant to the notice issued by the General Office of the Ministry of Culture and Tourism* (文化和旅遊部辦公廳) dated 14 July 2020, which still in effect up to the date of this report, the Group has partially resumed its local group package tours operation and the sales of "air ticketing and hotel booking" products, whilst all outbound tours continue to be suspended.

During the Year, the Group's total revenue decreased significantly by RMB66.0 million or 46.0% from RMB143.5 million for the year ended 31 December 2020 (the "**Previous Year**") to RMB77.5 million for the Year, whilst the Group recorded loss for the Year attributable to the owners of the Company of RMB137.5 million (Previous Year: RMB86.4 million), which was mainly due to temporary suspension of the Group's certain operations and the continued suspension of all outbound tours as a result of the outbreak of COVID-19.

The Group has been taking initiatives to diversify its business with an objective to broaden its income stream and expand into targeting segments. Apart from striving to restore its existing travel services and air ticketing agency businesses, the Group has been actively exploring the business of development and operation of cultural and tourist attractions, leveraging its expertise and operational experience in the tourism market.

In March 2021, an associated company of the Group cooperated with a state-owned company under the Government of Beilun District, Ningbo and set up a joint venture company, which has the re-development and operation rights of Jiufeng Mountain Scenic Area* (九峰山景區) (National 4A Tourist Attractions) located in Ningbo. The Board believes that efforts in obtaining and operating valuable tourist attractions located in the suburban areas will provide more business opportunities to the Group by facilitating its further development in the cultural tourism sector and contributing to its stable revenue growth.

In July 2021, leveraging the capacities of our technology team, the Group launched an intelligent travel SaaS system for higher education institutions (the "**SaaS System**") to provide intelligent travel services to higher education institutions in China and increase the Group's presence in the travel service market for higher education institutions. As at the date of this report, the Group has entered into travel service agreements with more than 10 higher education institutions in China. Having considered the stable demand and characteristics of travel services for higher education institutions in China, the Board believes that by facilitating the cooperation with higher education institutions in China, the launch of the SaaS System will not only expand the customer base and revenue source of the Group, but also allow the Group to further explore the travel service market of China.

CHAIRMAN'S STATEMENT

Bloomberg forecasts that the market size of the metaverse will reach US\$800 billion by 2024. To accelerate the building of a new path for digital economy, closely following the urban digital transformation, outlining a new path for the metaverse and developing the application scenarios, in December 2021, the Group and 3all FinTech Limited entered into the cooperation agreement to inject capital into Feiyang Metaverse Technology Limited (飛揚元宇宙科技有限公司) (“**Feiyang Metaverse Technology**”), a joint-venture company which is principally engaged in the development of an ETD Metaverse foundation platform, provision of data-storage services under the platform, and development of Metaverse games, hardware equipment for virtual reality technology. In this connection, the Group has recently launched the “Feiyang Metaverse” Digital Cultural and Creative Collectibles Platform, which focuses on the distribution and sales of cultural and creative collectibles (with blockchain contract uniqueness authentication) through a combination of “digital + physical” models in the PRC.

The Board pays great attention to the development of the outbreak of the COVID-19 and makes every effort on prevention and control, and daily operation management. The Board will continue to assess the impact of the outbreak of the COVID-19 on our operation and financial performance, and closely monitor our exposure to the risks and uncertainties in connection with the outbreak of the COVID-19.

PROSPECTS

The Board believes that the pandemic will eventually subside and the tourism industry is set to bounce back strongly. We will adhere to our corporate tenet “create pleasant journey to the public (為大眾創造幸福旅遊)”, and hope to offer our customers pleasant trips immediately after the pandemic passes. As with any crisis, there are always new opportunities and possibilities. During the year past, though hit hard by the pandemic, the Group has been devising and implementing strategies to ride on its existing operations and diversify into the cultural tourism business based on digital information technology, laying a solid foundation for the overall expansion and upgrading of the Group in the future.

APPRECIATION

Our continued success depends on all our staff's commitment, dedication and professionalism. The Board would like to thank every member of our staff for their diligence and dedication and to express our sincere appreciation to our shareholders, business partners, clients and suppliers for their continuous and valuable support.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is a well-established travel service provider based in Ningbo, Zhejiang Province of the PRC and offers diversified products that cater for different travellers' needs. The Group is principally engaged in (i) the design, development and sales of package tours which consist of traditional package tours and tailor-made tours; (ii) the sales of free independent traveller products (the **"FIT Products"**) which mainly include provision of air tickets and/or hotel accommodation; (iii) the provision of ancillary travel-related products and services, including but not limited to visa application processing, admission tickets to tourist attractions, conferencing services and arranging purchase of travel insurance for the customers; and (iv) provision of information system development services.

The unexpected outbreak of the COVID-19 has brought unprecedented impact to the world economy. The Group's business operations have been heavily disrupted by the travel restrictions imposed by nations of its own and across the world since 2020. On 14 July 2020, the General Office of the Ministry of Culture and Tourism (文化和旅游部辦公廳) issued the Notice on Matters Relating to the Promotion of Expanding the Resumption of Business Operations of Tourism Enterprises (關於推進旅遊企業擴大復工復業有關事項的通知) which is still in effect up to the date of this report, pursuant to which certain operations of tourism enterprises, including cross-provincial package tours and sales of "air ticketing and hotel booking" in the PRC (except for high- and medium-risk areas), are allowed to be carried out, whilst all outbound tours continue to be suspended. As a result, the Group has partially resumed its local package tours operation and sales of "air ticketing and hotel booking" products.

During the Year, the Group has been taking initiatives to diversify its business with an objective to broaden its income stream and expand into targeting segments.

In March 2021, Zhejiang Ninglv Feiyang Cultural Tourism Development Co., Ltd.* (浙江寧旅飛揚文旅發展有限公司) ("**Ninglv Feiyang**"), an associated company of the Group, and a state-owned company under the Government of Beilun District, Ningbo entered into a cooperation agreement for setting up Ningbo Qingning Cultural Tourism Development Co., Ltd.* (寧波市青寧文旅發展有限公司) ("**Ningbo Qingning**"), a joint venture company which is principally engaged in the development and operation of cultural tourism projects located in Beilun District, Ningbo, the PRC. Ningbo Qingning is currently investing in the operation and re-development of Jiufeng Mountain Scenic Area* (九峰山景區) (National 4A Tourist Attractions) located in Ningbo (the **"Jiufeng Project"**) and plans to increase the attractiveness of the Jiufeng Project and therefore its revenue stream through enhancement of the equipment and facilities of the Jiufeng Project.

In July 2021, the Group launched the SaaS System to provide intelligent travel services to higher education institutions in China and increase the Group's presence in the travel service market for higher education institutions. The SaaS System is a big-data artificial intelligence travel engine system, which can be directly connected to or embedded in the financial system of higher education institutions and their reimbursement channels for automatic operation to achieve intelligent and paperless travel management and services. As at the date of this report, the Group entered into travel service agreement with more than 10 higher education institutions in the PRC, including prestigious universities in the PRC.

The Group recorded a net loss of RMB137.5 million and RMB86.4 million for the Year and the Previous Year respectively, which was mainly due to (i) the increase in expected impairment of trade and other receivables from RMB73.0 million for the Previous Year to RMB96.2 million for the Year; and (ii) the decrease in revenue generated from sales of air tickets and hotel accommodation, sales of package tours and margin income from sales of free independent traveller products as a result of the outbreak of the COVID-19.

MANAGEMENT DISCUSSION AND ANALYSIS

PROSPECTS

According to the Ministry of Culture and Tourism, amid the impacts of COVID-19 pandemic, domestic travel volume in China saw a year-on-year increase of 12.8% in 2021, with around 3.25 billion domestic tourist trips was recorded, representing about 54% of that in 2019. Tourism-related revenue from domestic travel generated in 2021 also recorded a year-on-year increase by RMB690 billion or 31%, reaching about RMB2.92 trillion. Facing this challenging and tough period, the Group has been taking initiatives to diversify its income stream during the Year.

In addition to the establishment of Ningbo Qingning in March 2021, which is expected to provide more business opportunities to the Group by enhancing the sales network and customer base on domestic tourism in the PRC, the Group has also been enhancing the application of digital information technology and taking external orders and expected to increase efforts on market development for the digital information application business. The Group will, through the SaaS System, further expand business in the travel service market for higher education institutions on the sales side and at the same time continue to compile, screen and access suppliers with various high-quality resources on the supply side, including services of provision of air tickets, train tickets and hotel booking, insurance booking, pick-up services, car rental and visa services, so as to achieve automatic supply, comparative quotation, automatic ticketing, automatic refund and automatic reimbursement by combining the financial system of higher education institutions and their reimbursement channels.

In December 2021, the Group and 3all FinTech Limited entered into the cooperation agreement, pursuant to which the Group and 3all FinTech Limited have agreed to inject HK\$30 million into Feiyang Metaverse Technology, a joint-venture company which is principally engaged in the development of an ETD Metaverse foundation platform, provision of data-storage services under the platform, and development of Metaverse games, hardware equipment for virtual reality technology. In this connection, the Group has recently launched the “Feiyang Metaverse” Digital Cultural and Creative Collectibles Platform, which focuses on the distribution and sales of cultural and creative collectibles (with blockchain contract uniqueness authentication) through a combination of “digital + physical” models in the PRC. The first original IP collectible, “A Rabbit Traveling Across the World” (穿越世界的旅行兔), is expected to be launched no later than May 2022, and will be followed by a series of cultural and creative collectibles which IP copyrights are owned by the Group. The Board believes that with the in-depth development and application of technologies including blockchain and Metaverse, digital collectibles have become popular, and the value of digital collectibles will be gradually recognised by the market. For further details, please refer to the announcement of the Company dated 25 April 2022.

The tourism market has endured the severe shock brought on by the COVID-19 pandemic since 2020. However, domestic tourism is in an undulating recovery, and the Group holds a prudent but positive attitude toward the market’s development in 2022 thanks to government’s strict prevention and control measures and its experience containing the pandemic. The China Tourism Academy expects domestic travel to rebound by 16% to of 4.0 billion domestic tourist trips during 2022, while domestic tourism revenue will increase by 27% to RMB3.8 trillion.

The evolving pandemic will remain the biggest uncertainty the tourism industry will face in 2022, and it is necessary to prepare for any related risks and problems that may appear. The Group will closely monitor the development of the COVID-19 pandemic and measures implemented by relevant government authorities and adopt necessary measures and strategies.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

Revenue

The following table sets forth the breakdown of the Group's revenue by business segment for the years indicated:

	Year ended 31 December			
	2021		2020	
	Revenue RMB'000	Percentage of revenue %	Revenue RMB'000	Percentage of revenue %
Sales of package tours	70,285	90.7	69,744	48.6
Margin income from sales of FIT Products	4,690	6.1	21,955	15.3
Information system development services	1,316	1.7	–	–
Sales of ancillary travel-related products and services	1,180	1.5	2,047	1.4
Gross revenue from the sales of FIT Products	–	–	49,749	34.7
Total	77,471	100.0	143,495	100.0

The Group generated revenue from: (i) sales of package tours; (ii) margin income from sales of FIT Products; (iii) information system development services; (iv) sales of ancillary travel-related products and services; and (v) gross revenue from the sales of FIT Products. The Group's customers primarily comprised retail customers, and corporate and institutional customers. The Group's total revenue decreased significantly by RMB66.0 million or 46.0%, from RMB143.5 million for the Previous Year to RMB77.5 million for the Year, which was mainly due to the temporary suspension of certain business operations of the Group and the continued suspension of all outbound tours as a result of the outbreak of COVID-19.

Sales of package tours

The sales of package tours mainly represented the fees received from customers for the package tours. The Group's package tours can be classified into (i) traditional package tours, which are group tours with standardised itineraries; and (ii) tailor-made tours, which are group tours with non-standardised itineraries and provide freedom for customers to select their preferred mode of transportations, hotels and tourist attractions.

MANAGEMENT DISCUSSION AND ANALYSIS

Package tours by type

The following table sets forth the breakdown of the revenue from sales of package tours by type for the years indicated:

	Year ended 31 December			
	2021	2020	2021	2020
	Revenue RMB'000	Percentage of revenue %	Revenue RMB'000	Percentage of revenue %
Tailor-made tours	48,197	68.6	27,974	40.1
Traditional package tours	22,088	31.4	41,770	59.9
Total	70,285	100.0	69,744	100.0

The sales of tailor-made tours and traditional package tours contributed 68.6% and 31.4% (Previous Year: 40.1% and 59.9%) of the Group's total sales of package tours for the Year, respectively. The Group's sales of package tours remained relatively stable at RMB69.7 million and RMB70.3 million for the Previous Year and for the Year, respectively. The increase in sales from tailor-made tours increased from RMB28.0 million for Previous Year to RMB48.2 million for the Year mainly contributed by increasing corporate customers' demand for flexible tours. The decrease in sales from traditional package tours from RMB41.8 million for the Previous Year to RMB22.1 million for the Year was mainly due to the suspension of certain business operations of the Group on package tours as a result of the outbreak of COVID-19.

Margin income from sales of FIT Products

FIT Products mainly include air tickets, hotel accommodation and a combination of both. The Group's margin income from sales of FIT Products is recognised on a net basis, being the sales invoice amount of the FIT Products netted off against the associated direct costs, as the Group render services as an agent, whereby the Group is only responsible for arranging the booking of FIT Products with no control obtained over the services performed by airline operators, hotel operators and other travel agencies.

MANAGEMENT DISCUSSION AND ANALYSIS

FIT Products by type

The Group's margin income from sales of FIT Products included (i) margin income from sales of air tickets; and (ii) margin income from sales of other FIT Products. The following table sets forth the breakdown of revenue from FIT Products by type for the years indicated:

	Year ended 31 December	
	2021	2020
	RMB'000	RMB'000
Air tickets		
Gross sales proceeds	91,132	265,820
Cost of air tickets	(88,123)	(249,686)
Revenue from sales of air tickets	3,009	16,134
Incentive commission	281	4,607
Margin income from sales of air tickets	3,290	20,741
Others		
Margin income from sales of other FIT Products	1,400	1,214
Total	4,690	21,955

The Group's total margin income from sales of FIT Products significantly decreased by RMB17.3 million or 78.6% from RMB22.0 million for the Previous Year to RMB4.7 million for the Year.

During the Year, the Group's gross sales proceeds from sales of air tickets decreased significantly by RMB174.7 million or 65.7%, from RMB265.8 million for the Previous Year to RMB91.1 million for the Year. Margin income from sales of air tickets decreased which was mainly due to the decrease in number of air tickets sold and the incentive commission received from airline operators, global distribution system ("GDS") service providers and ticketing agents as the sales of FIT Products were temporarily suspended as a result of the outbreak of COVID-19.

The Group's margin income from sales of other FIT Products remained relatively stable at RMB1.2 million and RMB1.4 million for the Previous Year and the Year, respectively.

Information system development services

During the Year, the Group launched an intelligent travel SaaS system for higher education institutions and expected to increase efforts on market development by taking external orders for the digital information application business. Revenue from information system development services amounted to RMB1.3 million for the Year (Previous Year: nil).

Sales of ancillary travel-related products and services

The Group also offered ancillary travel-related products and services to customers. The sales of ancillary travel-related products and services decreased by RMB0.8 million from RMB2.0 million for the Previous Year to RMB1.2 million for the Year as a result of the temporary suspension of certain business operations of the Group due to the outbreak of COVID-19.

MANAGEMENT DISCUSSION AND ANALYSIS

Gross revenue from the sales of FIT Products

Gross revenue from the sales of FIT Products represented the sales of air tickets and hotel accommodations to customers which were recorded on a gross basis. No revenue was recognised for the gross sales of air tickets and hotel accommodations for the Year as a result of the outbreak of COVID-19 (Previous Year: RMB49.7 million).

Cost of sales

The Group's cost of sales mainly represented the direct costs incurred for the sales of package tours including land and cruise operation, air ticket and local transportation, hotel accommodation and others. Cost of sales decreased by RMB42.7 million from RMB112.2 million for the Previous Year to RMB69.5 million for the Year. Such decrease was generally in line with the decrease in the Group's total revenue.

Gross profit and gross profit margin

The following table sets forth the breakdown of the Group's gross profit and gross profit margin by business segment for the years indicated:

	Year ended 31 December			
	2021	2020		
	Gross profit RMB'000	Gross profit margin %	Gross profit RMB'000	Gross profit margin %
Package tours				
— Tailor-made	4,697	9.7	2,700	9.7
— Traditional	3,396	15.4	2,872	6.9
	8,093	11.5	5,572	8.0
Margin income from sales of FIT Products	732	15.6	17,515	79.8
Information system development services	(1,813)	—	—	—
Ancillary travel-related products and services	949	80.4	1,250	61.1
Gross revenue from the sales of FIT Products	—	—	6,939	13.9
Total	7,961	10.3	31,276	21.8

The Group recorded gross profit of RMB8.0 million and RMB31.3 million, representing gross profit margin of 10.3% and 21.8% for the Year and the Previous Year, respectively. The decrease in the overall gross profit was mainly due to (i) decrease in margin income from sales of FIT Products and gross revenue from sales of FIT Products by RMB16.8 million and RMB6.9 million respectively; and (ii) gross loss from information system development services of RMB1.8 million as it is newly launched during the Year and still at its early development stage.

MANAGEMENT DISCUSSION AND ANALYSIS

The overall gross profit margin decreased by 11.5 percentage points from 21.8% for the Previous Year to 10.3% for the Year, which was mainly attributable by the decrease in proportion of overall revenue generated from margin income from sales of FIT Products from 15.3% for the Previous Year to 6.1% for the Year as revenue for FIT Products are recognised on a net basis.

The overall gross profit margin of package tours increased by 3.5 percentage points from 8.0% for the Previous Year to 11.5% for the Year was mainly due to decrease in the number of package tours being cancelled contributed by the temporary suspension of inbound and outbound travelling during the Year, which led to decrease in direct costs for handling cancellation. The gross profit margin of FIT Products significantly decreased from 79.8% for the Previous Year to 15.6% for the Year due to margin income from sales of FIT Products for outbound travelling with relatively higher profit margin continued to be suspended during the Year.

Other income and gains

Other income and gains mainly represented government grants, foreign exchange gain and fair value gain on financial assets at fair value through profit or loss. Other income and gains significant decreased by RMB11.1 million from RMB14.9 million for the Previous Year to RMB3.8 million for the Year mainly due to decrease in government grant by RMB9.3 million during the Year. The government grants are non-recurring which subject to the discretion of the government, with no unfulfilled conditions of contingencies.

Selling and distribution expenses

Selling and distribution expenses mainly consisted of (i) staff costs from sales department; (ii) advertising and marketing expenses to promote the Group's products and services through various channels such as social networks, magazines and marketing events; (iii) depreciation; and (iv) office and utility expenses for the tourism square, retail branches and sales office.

The Group's selling and distribution expenses decreased by RMB3.4 million or 20.5% from RMB16.8 million for the Previous Year to RMB13.4 million for the Year mainly attributable to (i) the decrease in staff costs of RMB1.1 million as a result of headcount reduction due to temporary suspension of certain business operations of the Group; and (ii) the decrease in advertising and marketing expenses of RMB1.4 million as travelling activities were suspended during the Year.

Administrative expenses

The Group's administrative expenses mainly consisted of (i) staff costs of administrative departments; (ii) office and utility expenses for the Group's offices; (iii) depreciation; (iv) transaction fee representing processing fee paid to payment platforms for transactions; (v) legal and professional fee; and (vi) other administrative expenses.

Administrative expenses decreased by RMB7.3 million or 24.8% from RMB29.6 million for the Previous Year to RMB22.2 million for the Year, which was mainly due to (i) decrease in legal and professional fee of RMB3.0 million from RMB8.1 million for Previous Year to RMB5.0 million for the Year; (ii) decrease in staff costs by RMB1.9 million as a result of headcount reduction due to the suspension of certain business operations of the Group; and (iii) decrease of depreciation of right-of-use assets by RMB1.2 million due to termination of certain tenancy agreements for office premises during the Year.

MANAGEMENT DISCUSSION AND ANALYSIS

Impairment losses on financial assets, net

During the Year, the Group recorded provision for impairment on trade receivables and prepayments, deposits and other receivables of RMB16.7 million and RMB79.5 million, respectively (Previous Year: RMB49.9 million and RMB23.1 million). The increase was mainly due to the increase in the credit risk on trade receivables and prepayments, deposits and other receivables as a result of the COVID-19 pandemic.

The trade receivables mainly represented the amount due from customers for procurement of the Group's products and services. The majority of the trade receivables as at 31 December 2021 had been over 2 years. The prepayments, deposits and other receivables primarily incurred prior to the outbreak of COVID-19 and mainly represented deposit and advance payment to suppliers including airline operators, GDS service providers and ticketing agents for future procurement of air tickets, package tours, cruise holiday packages and other travel-related products.

Since the outbreak of COVID-19, the travel restrictions and quarantine requirements in place around the world have brought an unprecedented disruption of the aviation and tourism industry. Some of the Group's customers failed to make payment on time, and the Group failed to obtain refund from some of its suppliers for the deposit and advance payment made by the Group prior to the outbreak of COVID-19, which were only allowed to be utilised for future procurement. In the industry seen to be most susceptible to coronavirus disruptions, the government's COVID-19 policies are largely driving the sector's recovery path. However, it is highly probable that the government will not completely relax the travel restrictions and quarantine requirements in short term. The continued delay in the settlement of trade receivables and prepayments mainly caused by the COVID-19 pandemic indicated a significant increase in credit risk, which could not be anticipated by the Company prior to the outbreak of COVID-19. Despite that the Group has taken measures to settle the trade receivables and prepayments, the Company applied a prudent estimation to provide for impairment on trade receivables and prepayments, deposits and other receivables.

Receivables relating to trade and other debtors with known financial difficulties, dispute or significant doubt on collection of receivables are assessed individually for provision for impairment allowance. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates.

The Group uses a provision matrix to calculate expected credit losses ("ECL") for trade receivables. To measure the provision rates, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The Group calibrates the matrix to adjust the current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables.

The ECL of refund from suppliers, deposits and other receivables are estimated by applying a loss rate approach with reference to the historical loss record of the Group. The loss rate is adjusted to reflect the current conditions and forecasts of future economic conditions, as appropriate.

The Directors are of the view that (i) the above method used in determining the amount of the impairments comply with the requirements of Hong Kong Financial Reporting Standards ("HKFRSs"); (ii) the basis used reasonably reflected past events, current conditions and forecasts of future economic development; and (iii) the amount of impairments has been fairly estimated with reference to the risks and uncertainties faced by the Group as a result of the COVID-19 pandemic.

In order to recover the impaired balances, the Group has taken relevant measures including commencing litigation against certain debtors and has applied to court for seizure of assets from the debtors for cases where judgment was obtained in favour of the Group.

MANAGEMENT DISCUSSION AND ANALYSIS

Interest expenses

The Group's interest expenses mainly represented interest expenses on bank and other borrowings and lease liabilities. The decrease in interest expenses of RMB1.6 million from RMB13.2 million for the Previous Year to RMB11.6 million for the Year was mainly due to the decrease in average borrowings during the Year.

Income tax credit/(expense)

Income tax expenses amounted to RMB0.4 million for the Year, and income tax credit amounted to RMB2.6 million for the Previous Year. The income tax expenses for the Year was mainly attributed by the recognition of deferred tax assets/(liabilities) in relation to lease liabilities and right-of-use assets.

Loss for the year attributable to the owners of the Company

As a result of the foregoing, loss for the Year attributable to the owners of the Company was RMB137.5 million (Previous Year: RMB86.4 million).

Prepayments, deposits and other receivables, net

The following table sets forth the breakdown of the prepayments, deposits and other receivables after impairment allowance:

	As at 31 December	
	2021	2020
	RMB'000	RMB'000
Non-current:		
Rental deposits	500	911
Current:		
Deposit and other receivables, net	65,918	69,993

Interest receivables	5	23
Value-added tax recoverable	–	670
	122,296	219,707
Total	122,796	220,618

The prepayments, deposits and other receivables decreased by RMB97.8 million from RMB220.6 million as at 31 December 2020 to RMB122.8 million as at 31 December 2021, which was primarily attributable to the increase in provision for impairment on deposit and other receivables due to increase in credit risk as a result of the outbreak of COVID-19.

Deposits — procurement of air tickets	63,691	66,436
Deposits — others	1,516	1,498
Other receivables	711	2,059
	65,918	69,993

The Group's deposits and other receivables, net mainly represented deposits for procurement of air tickets which were paid to airline operators, GDS service providers and ticketing agents. The Group's other receivables mainly represented petty cash for the tour escorts and staff.

The decrease in deposits and other receivables, net by RMB4.1 million from RMB70.0 million as at 31 December 2020 to RMB65.9 million as at 31 December 2021 was primarily due to increase in credit risk on deposits and other receivables as a result of the outbreak of COVID-19.

Refund from suppliers

Refund from suppliers mainly represented prepayments and deposits made which were reclassified to refund from suppliers as such amount would not be used for future procurement from respective air ticket suppliers, land and cruise operators and other suppliers due to the travel restrictions and refundable to the Group. Under the travel restrictions imposed by the government as a result of the outbreak of COVID-19, the Group temporarily suspended its certain business operations. The Group recorded refund from air ticket suppliers, land and cruise operators and other suppliers of RMB44.1 million as at 31 December 2021.

Prepayments

	As at 31 December 2021 RMB'000	2020 RMB'000
Air tickets	6,050	143,771
Land and cruise operators	3,701	1,602
Hotel accommodation	72	908
Others	2,087	2,497
	11,910	148,778

The Group's prepayments mainly represented prepayments for (i) procurement of air tickets for both of package tours and FIT Products which were required by the Group's air ticket suppliers; and (ii) package tours to land operators and cruise holiday packages to cruise operators which had not departed as at the end of reporting period.

MANAGEMENT DISCUSSION AND ANALYSIS

The decrease in prepayments by RMB136.9 million from RMB148.8 million as at 31 December 2020 to RMB11.9 million as at 31 December 2021 was mainly due to (i) the decrease in procurement of air tickets as a result of the outbreak of COVID-19; and (ii) the partial reclassification to refund from suppliers as mentioned above.

Impairment assessment

The Group performed recoverability assessment on prepayment, deposits and other receivables, including but not limited to information about the strength of the suppliers to make the refund or honour the settlement obligations, under the expected credit loss model upon application of HKFRS 9, and allowance of impairment, amounting to RMB79.5 million was provided for the Year as there and is an increase in credit risk inherent in the Group's outstanding balance of deposits and other receivables. The Directors will regularly review the recoverability of these deposits and receivables and take follow-up actions as and when appropriate to recover amounts overdue.

LIQUIDITY AND FINANCIAL REVIEW

As at 31 December 2021, the Group's current assets and current liabilities were RMB197.8 million and RMB266.2 million (as at 31 December 2020: RMB286.6 million and RMB279.5 million), respectively, of which the Group maintained cash and bank balances of RMB43.1 million (as at 31 December 2020: RMB22.1 million) and pledged short-term deposits of RMB4.1 million (as at 31 December 2020: RMB12.5 million). As at 31 December 2021, the Group's current ratio was 0.7 times (as at 31 December 2020: 1.0 times).

As at 31 December 2021, all bank and other borrowings of the Group bore fixed interest rates, the maturity and currency profile are set out as follows:

	Within 1 year RMB'000	2nd to 3rd year RMB'000	Total RMB'000
RMB	201,286	2,436	203,722

The Group's gearing ratio as at 31 December 2021, which was calculated on the basis of total borrowings as a percentage of equity attributable to equity holders of the Company, was 843.3% (as at 31 December 2020: 177.0%). The increase in gearing ratio was mainly attributable to the decrease in total equity of the Group as a result of operating loss during the Year.

The average turnover days of trade receivables were 103.7 days and 251.1 days for the Year and the Previous Year, respectively. The decrease in average turnover days of trade receivables during the Year was mainly due to increase in provision of impairment on trade receivable during the Year. The average turnover days of trade payables for the Year decreased to 66.3 days (Previous Year: 85.9 days) as the Group settled the trade payables balance more quickly.

The Group adopts conservative treasury policies in cash and financial management. Cash is generally placed in deposits mostly denominated in RMB and Hong Kong dollars ("HKD"). The Group's liquidity and financing requirements are reviewed regularly.

During the Year, the Group's primary source of funding included share placing, cash generated from operation and the credit facilities granted by banks in the PRC. The Directors believe that the Group's current cash and bank balances, together with the banking facilities available, fund raising activities and the expected cash flow from operations, will be sufficient to satisfy its current operational and working capital requirements.

MANAGEMENT DISCUSSION AND ANALYSIS

CAPITAL STRUCTURE

Save for the placing of new shares under general mandate as disclosed in the section headed “Fund Raising Activities”, there is no material change in the capital structure of the Company during the Year. The capital of the Company comprises only ordinary shares.

FOREIGN EXCHANGE RISK MANAGEMENT

Most of the Group’s sales, procurements and operating costs are denominated in RMB, except for certain air tickets from international airline operators which were mainly denominated and settled in HKD and such foreign currency transactions and exposure were not material to the Group’s total cost of air tickets as a whole. During the Year, the Group has not entered into any hedging transactions to reduce the exposure to foreign exchange risk, which the Directors consider not material to the Group’s financial performance. However, the Group will continue to closely monitor all possible exchange risk arising from the Group’s existing operations and new investments in the future and will implement the necessary hedging arrangement(s) to mitigate any significant foreign exchange exposure.

CHARGE ON ASSETS

As at 31 December 2021 and 2020, the Group’s bank loans are secured by:

- (i) mortgages over the Group’s investment properties situated in the PRC, which had an aggregate net carrying value of RMB6.3 million and RMB8.5 million as at 31 December 2021 and 2020, respectively;
- (ii) the pledge of certain of the Group’s trade receivables amounting to RMB0.8 million and nil as at 31 December 2021 and 2020, respectively; and
- (iii) the pledge of certain of the Group’s pledged time deposits amounting to nil and RMB1.0 million as at 31 December 2021 and 2020, respectively.

In addition, the Group’s credit card facility amounting to nil (2020: RMB1,000,000), of which nil had been utilised as at 31 December 2021 (2020: Nil), is secured by the pledge of certain of the Group’s time deposits amounting to nil (2020: RMB500,000).

EMPLOYMENT AND REMUNERATION POLICY

As at 31 December 2021, the total number of employees of the Group was 189 (31 December 2020: 278). Staff costs (including Directors’ emoluments) amounted to RMB22.1 million for the Year (Previous Year: RMB23.5 million). Remuneration of the employees includes salary and discretionary bonuses based on the Group’s results and individual performance and the Group conducts regular performance reviews to assess the performance of the employees.

Retirement benefits schemes and in-house training programmes are made available to all levels of personnel. The employees of the Group’s subsidiaries which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute a certain percentage of payroll costs to the central pension scheme.

MANAGEMENT DISCUSSION AND ANALYSIS

DIVIDEND

The Board did not recommend the payment of any final dividend for the Year (Previous Year: Nil).

INVESTMENT PROPERTIES

The Group's investment properties contain offices in Mainland China and are leased to third parties under operating leases for rental income. As at 31 December 2021, the Group's investment properties amounted to RMB6.3 million (2020: RMB8.5 million) and were revalued based on valuations performed by an independent professionally qualified valuer. Particulars of properties held for investment purposes are set out on page 173 of this report.

INVESTMENT IN ASSOCIATES

The Group's investments in associates are primarily represented by its interest in Ningbo Yinjiang Feiyang Cultural Tourism Development Co., Ltd.* (寧波鄞江飛揚文旅開發有限公司) and Ninglv Feiyang, which were principally engaged in the management and development of tourist attractions. During the Year, the Group recorded share of losses of associates of RMB2.3 million (Previous Year: RMB0.5 million).

SIGNIFICANT INVESTMENTS, MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES, AND FUTURE PLANS FOR MATERIAL INVESTMENTS OR ADDITIONS OF CAPITAL ASSETS

In March 2021, Ninglv Feiyang and a state-owned company under the Government of Beilun District, Ningbo entered into a cooperation agreement for setting up Ningbo Qingning, a joint venture company which is principally engaged in the development and operation of cultural tourism projects located in Beilun District, Ningbo, the PRC and investment in the Jiufeng Project. Ninglv Feiyang owns 70% of the registered capital of the joint venture company. For further details, please refer to the announcements of the Company dated 22 March 2021 and 29 March 2021.

In December 2021, the Group and 3all FinTech Limited entered into the cooperation agreement, pursuant to which the Group and 3all FinTech Limited have agreed to inject HK\$30 million into Feiyang Metaverse Technology, a joint-venture company which is principally engaged in the development of an ETD Metaverse foundation platform, provision of data-storage services under the platform, and development of Metaverse games and hardware equipment for virtual reality technology. For further details, please refer to the announcement of the Company dated 22 December 2021.

Save as disclosed in this report, as at 31 December 2021, the Group did not hold any significant investment that accounted for more than 5% of the Group's total assets as at 31 December 2021, and there were no other significant investments, material acquisitions and disposals by the Company during the Year, nor there was any other future plans for material investments or additions of capital assets at the date of this report.

CONTINGENT LIABILITIES

As at 31 December 2021 and 2020, the Group did not have any significant contingent liabilities.

MANAGEMENT DISCUSSION AND ANALYSIS

SUBSEQUENT EVENTS

On 2 March 2022, the Company announced a proposal to implement a rights issue on the basis of one rights share for every three existing shares held on 25 March 2022 at an subscription price of HK\$0.50 per rights share, to raise up to HK\$100,000,000 (before expenses) by issuing up to 200,000,000 rights shares (assuming no change in the share capital of the Company on or before 25 March 2022) to the qualifying shareholders (the “**Rights Issue**”). For further details of the Rights Issue, please refer to the prospectus of the Company dated 28 March 2022 and the announcement of the Company dated 2 March 2022.

On 22 April 2022, a total of 200,000,000 rights shares were issued pursuant to the Rights Issue.

Other than the event as disclosed and described above, there is no other significant event occurred after the end of the reporting period.

FUND RAISING ACTIVITIES

Placing of New Shares under General Mandate

On 8 November 2021, the Company and the placing agent entered into the placing agreement (the “**Placing Agreement**”), pursuant to which the Company has conditionally agreed to place, through the placing agent on a best effort basis, a maximum of 100,000,000 placing shares at the placing price of HK\$0.70 per placing share (the “**Placing**”) to not less than six placees (the “**Placees**”), which were institutional, corporate or individual investors who and whose ultimate beneficial owner(s) are independent third parties. The placing shares rank pari passu in all respects among themselves and with the Shares in issue on the date of allotment and issue of the placing shares. The price of HK\$0.70 per placing share was determined after arm’s length negotiations between the Company and the placing agent with reference to the prevailing market price of the Shares on the Stock Exchange. The placing price represents a discount of approximately 13.58% to the closing price of HK\$0.81 per Share as quoted on the Stock Exchange on the date of the Placing Agreement. The net proceed from the Placing (after deducting the related expenses) was approximately RMB55.7 million, and the net price per placing share is approximately HK\$0.68.

The Company intended that approximately 50% of the net proceeds of the Placing be used for repayment of loans and approximately 50% of the net proceeds of the Placing for replenishment of working capital and general business operation.

In view of the market conditions, the Directors are of the view that the Placing can enlarge the shareholder base and the capital base of the Company and to raise capital for the Group’s repayment of loans, replenishment of working capital and general business operation. The Directors consider that the terms of the Placing Agreement are fair and reasonable and the Placing is in the interests of the Company and the Shareholders as a whole.

The new shares were issued under the general mandate granted to the Directors pursuant to an ordinary resolution of the Company passed at the annual general meeting held on 9 June 2021. The 100,000,000 new shares were placed to the Placees on 2 December 2021. As at the date of this report, the proceeds from the Placing were fully utilised as intended. For further details, please refer to the announcements of the Company dated 8 November 2021 and 2 December 2021.

MANAGEMENT DISCUSSION AND ANALYSIS

USE OF PROCEEDS

The plan of use of proceeds from the global offering of the Company has been set out in the prospectus of the Company dated 18 June 2019 (the “Prospectus”). After due and careful consideration of the current business environment and the development needs of the Group, the Board has determined to change the use of the proceeds of approximately HK\$15.2 million originally allocated for setting up new retail branches and points of sales and refurbishing existing retail branches to investing in the management and development of tourist attractions in the PRC. The analysis of the unutilised amount, the actual use of proceeds and the expected timeline for utilising the unutilised proceeds are set out as below:

Business objective	Planned use of proceeds as stated in the Prospectus HK\$'000	Unutilised amount as at 31 December 2020 HK\$'000	Change of allocation of the unutilised net proceeds HK\$'000	Actual use of proceeds for the Year HK\$'000	Unutilised amount as at 31 December 2021 HK\$'000	Expected timeline for utilising the unutilised proceeds

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE PRACTICES

The Board of Directors (the “**Board**”) is committed to ensuring the Company adhere to a good standard of corporate governance.

The Board believes that good corporate governance standards are essential in providing a framework for the Company to safeguard the interests of shareholders, enhance corporate value, formulate its business strategies and policies, and enhance its transparency and accountability.

The Company has adopted and applied the principles as set out in the Corporate Governance Code (the “**CG Code**”) contained in Appendix 14 to the Listing Rules as the basis of the Company’s corporate governance practices.

During the year ended 31 December 2021, the Company has complied with all the applicable code provisions as set out in the CG Code, except for code provision C.2.1 described in the paragraph headed “Board of Directors — Chairman and Chief Executive Officer” in this Corporate Governance Report.

DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted the Model Code as set out in Appendix 10 to the Listing Rules as its own code of conduct regarding securities transactions by the Directors.

Specific enquiry has been made of all the Directors and the Directors have confirmed that they have complied with the required standard set out in the Model Code throughout the Year.

The Company has also adopted the Model Code as its written guidelines (the “**Employees Written Guidelines**”) in respect of securities dealings by relevant employees who are likely to be in possession of unpublished price-sensitive information of the Company. No incident of non-compliance of the Employees Written Guidelines by the employees was noted by the Company.

CORPORATE GOVERNANCE REPORT

BOARD OF DIRECTORS

The Company is headed by an effective Board which oversees the Group's businesses, strategic decisions and performance and takes decisions objectively in the best interests of the Company.

The Board should regularly review the contribution required from a Director to perform his responsibilities to the Company, and whether the Director is spending sufficient time performing them.

Board Composition

The Board currently comprises nine Directors, consisting of six executive Directors and three independent non-executive Directors.

The composition of the Board is as follows:

Executive Directors

Mr. He Binfeng (*Chairman and Chief Executive Officer*)
Mr. Xiong Di (*appointed on 20 May 2021*)
Mr. Huang Yu
Mr. Wu Bin
Mr. Chen Xiaodong
Ms. Qiu Zheng (*appointed on 28 January 2021*)
Mr. Li Da (*resigned on 28 January 2021*)
Mr. Zhang Qinghai (*resigned on 20 May 2021*)

Independent Non-executive Directors

Mr. Li Huamin
Mr. Yi Ling
Ms. Li Chengai

The biographical information of the Directors are set out in the section headed "Directors and Senior Management Profile" on pages 21 to 26 of this annual report.

Chairman and Chief Executive Officer

Code provision C.2.1 of the CG Code stipulates that the role of chairman and chief executive officer should be separated and should not be performed by the same individual.

CORPORATE GOVERNANCE REPORT

Under the current management structure of the Company, Mr. He Binfeng is the chairman of the Board (the “**Chairman**”) and the chief executive officer of the Company. Since Mr. He Binfeng has been operating and managing Feiyang International, the main operating subsidiary of the Company since its establishment and due to his familiarity with the operations of the Group, the Board is of the view that it is in the best interest of the Group to have Mr. He Binfeng taking up both roles for effective management and business development of the Group following the listing of the Company (the “**Listing**”) on The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”) and Mr. He Binfeng will provide a strong and consistent leadership to the Group. This arrangement ensures a more effective and efficient overall strategic planning of the Group as this structure enables the Company to make and implement decisions promptly and effectively. Further, the Company has put in place an appropriate check-and-balance mechanism through the Board and three independent non-executive Directors. The independent non-executive Directors are able to retain independence of character and judgment and are able to express their views without any constraint. In addition, the Board also consists of five other executive Directors who are familiar with the day-to-day business of the Company. The Company will consult the Board for any major decisions. Therefore, the Board considers that the balance of power and authority of the present arrangement with the Board and the independent non-executive Directors will not be impaired because such arrangement would not result in excessive concentration of power in one individual which could adversely affect the interest of minority Shareholders. As such, the deviation from code provision C.2.1 of the CG Code is appropriate in such circumstance. The Board will continue to review and consider splitting the roles of the chairman of the Board and the chief executive officer of the Company at a time when it is appropriate and suitable by taking into account the circumstances of the Group as a whole.

Independent Non-executive Directors

During the Year, the Board at all times met the requirements of the Listing Rules relating to the appointment of at least three independent non-executive Directors, with one of whom possessing appropriate professional qualifications or accounting or related financial management expertise.

The Company has received written annual confirmation from each of the independent non-executive Directors in respect of his independence in accordance with the independence guidelines set out in Rule 3.13 of the Listing Rules. The Company is of the view that all independent non-executive Directors are independent.

Appointment and Re-election of Directors

The independent non-executive Directors of the Company are appointed for a specific term of three years commencing from the date of the Listing, subject to retirement by rotation and re-election at the Annual General Meeting.

The articles of association of the Company (the “**Articles of Association**”) provides that all Directors appointed to fill a casual vacancy shall be subject to re-election by shareholders at the first general meeting of the Company after appointment.

Under the Articles of Association, at each annual general meeting, one-third of the Directors for the time being, or if their number is not three or a multiple of three, the number nearest to but not less than one-third, shall retire from office by rotation provided that every Director shall be subject to retirement by rotation at least once every three years. A retiring Director shall be eligible for re-election.

CORPORATE GOVERNANCE REPORT

Responsibilities, Accountabilities and Contributions of the Board and Management

The Board should assume responsibility for leadership and control of the Company; and is collectively responsible for directing and supervising the Company's affairs.

The Board directly, and indirectly through its committees, leads and provides direction to management by laying down strategies and overseeing their implementation, monitors the Group's operational and financial performance, and ensures that sound internal control and risk management systems are in place.

All Directors, including independent non-executive Directors, have brought a wide spectrum of valuable business experience, knowledge and professionalism to the Board for its efficient and effective functioning. The independent non-executive Directors are responsible for ensuring a high standard of regulatory reporting of the Company and providing a balance in the Board for bringing effective independent judgement on corporate actions and operations.

All Directors have full and timely access to all the information of the Company and may, upon request, seek independent professional advice in appropriate circumstances, at the Company's expenses, for discharging their duties to the Company.

The Directors shall disclose to the Company details of other offices held by them.

The Board reserves for its decision all major matters relating to policy matters, strategies and budgets, internal control and risk management, material transactions (in particular those that may involve conflict of interests), financial information, appointment of directors and other significant operational matters of the Company. Responsibilities relating to implementing decisions of the Board, directing and co-ordinating the daily operation and management of the Company are delegated to the management.

Continuous Professional Development of Directors

All Directors, including executive Directors and independent non-executive Directors, should keep abreast of their collective responsibilities as Directors and of the businesses and activities of the Group. Every newly appointed Director has received a formal and comprehensive induction on the first occasion of his appointment to ensure appropriate understanding of the business and operations of the Company and full awareness of Director's responsibilities and obligations under the Listing Rules and relevant statutory requirements.

Directors should participate in appropriate continuous professional development to develop and refresh their knowledge and skills. All Directors are encouraged to attend relevant training courses at the Company's expenses.

The Group provided briefings and other training to develop and refresh the Directors' knowledge and skills, and updates all Directors on the latest developments regarding the Listing Rules and other applicable regulatory requirements to ensure compliance and to enhance their awareness of good corporate governance code.

The Directors are committed to complying with the code provision C.1.4 on Directors' training. During the Year, all the Directors received training materials, including from the Company's legal advisers, about matters relevant to their duties as directors of a listed company. They also kept abreast of matters relating to their role as directors by such means as attendance at seminars and conference and/or reading materials about financial, commercial, economic, legal, regulatory and business affairs.

CORPORATE GOVERNANCE REPORT

BOARD COMMITTEES

The Board has established 3 committees, namely, the Audit Committee, the Remuneration Committee, and the Nomination Committee, for overseeing particular aspects of the Company's affairs. All Board committees of the Company are established with specific written terms of reference which deal clearly with their authority and duties. The terms of reference of the Audit Committee, Remuneration Committee and Nomination Committee are posted on the Company's website and the Stock Exchange's website and are available to shareholders upon request.

The list of the chairman and members of each Board committee is set out under "Corporate Information" on page 2 of this annual report.

Audit Committee

The Audit Committee consists of three independent non-executive Directors, namely Ms. Li Chengai, Mr. Li Huamin and Mr. Yi Ling. Ms. Li Chengai is the chairlady of the Audit Committee.

The terms of reference of the Audit Committee are of no less exacting terms than those set out in the CG Code. The main duties of the Audit Committee are to assist the Board in reviewing the financial information and reporting process, risk management and internal control systems, effectiveness of the internal audit function, scope of audit and appointment of external auditors and arrangements to enable employees of the Company to raise concerns about possible improprieties in financial reporting, internal control, or other matters of the Group.

During the Year, the Audit Committee held two meetings to review the interim and annual financial results and reports and significant issues on the financial reporting, operational and compliance controls.

CORPORATE GOVERNANCE REPORT

Remuneration Committee

The Remuneration Committee consists of three members, namely Mr. Li Huamin, independent non-executive Director, Mr. He Binfeng, executive Director and Ms. Li Chengai, independent non-executive Director. Mr. Li Huamin is the chairman of the Remuneration Committee.

The terms of reference of the Remuneration Committee are of no less exacting terms than those set out in the CG Code. The primary functions of the Remuneration Committee include making recommendations to the Board on the remuneration packages of individual Directors and senior management, the remuneration policy and structure for all Directors and senior management; and establishing transparent procedures for developing such remuneration policy and structure to ensure that no Director or any of his/her associates will participate in deciding his/her own remuneration.

A meeting of the Remuneration Committee was held in March 2021. Details of the remuneration of the Directors and the five highest paid employees are set out in Notes 8 and 9 to the Financial Statements.

The remuneration of the members of senior management by band for the Year is set out below:

Remuneration bands (RMB)	Number of individuals
Nil to 500,000	6

Nomination Committee

The Nomination Committee consists of three members, namely Mr. He Binfeng, executive Director, Mr. Yi Ling, independent non-executive Director and Mr. Li Huamin, independent non-executive Director. Mr. He Binfeng is the chairman of the Nomination Committee.

The terms of reference of the Nomination Committee are of no less exacting terms than those set out in the CG Code. The principal duties of the Nomination Committee include reviewing the Board composition, developing and formulating relevant procedures for the nomination and appointment of Directors, making recommendations to the Board on the appointment and succession planning of Directors, and assessing the independence of independent non-executive Directors.

In assessing the Board composition, the Nomination Committee would take into account various aspects as well as factors concerning Board diversity as set out in the Company's Board Diversity Policy. The Nomination Committee would discuss and agree on measurable objectives for achieving diversity on the Board, where necessary, and recommend them to the Board for adoption.

In identifying and selecting suitable candidates for directorships, the Nomination Committee would consider the candidate's relevant criteria as set out in the Director Nomination Policy that are necessary to complement the corporate strategy and achieve Board diversity, where appropriate, before making recommendation to the Board.

During the Year, the Nomination Committee met once to review the structure, size and composition of the Board and the independence of the independent non-executive Directors.

CORPORATE GOVERNANCE REPORT

Board Diversity Policy

The Company has adopted a board diversity policy (the “**Board Diversity Policy**”) which sets out the approach to achieve diversity of the Board and is available on the website of the Company. The Company recognises and embraces the benefits of having a diverse Board and sees increasing diversity at the Board level as an essential element in maintaining the Company’s competitive advantage.

Pursuant to the Board Diversity Policy, the Nomination Committee will review annually the structure, size and composition of the Board and where appropriate, make recommendations on changes to the Board to complement the Company’s corporate strategy and to ensure that the Board maintains a balanced diverse profile. In relation to reviewing and assessing the Board composition, the Nomination Committee is committed to diversity at all levels and will consider a number of aspects, including but not limited to gender, age, cultural and educational background, ethnicity, experience, expertise, qualifications, skills and knowledge as well as independence of the Board.

The Company aims to maintain an appropriate balance of diversity perspectives that are relevant to the Company’s business growth and is also committed to ensuring that recruitment and selection practices at all levels (from the Board downwards) are appropriately structured so that a diverse range of candidates are considered.

The Board will consider setting measurable objectives to implement the Board Diversity Policy and review such objectives from time to time to ensure their appropriateness and ascertain the progress made towards achieving those objectives.

The Nomination Committee will review the Board Diversity Policy on a regular basis to ensure its effectiveness.

Director Nomination Policy

The Board has delegated its responsibilities and authority for selection and appointment of Directors to the Nomination Committee of the Company.

The Company has adopted a director nomination policy (the “**Director Nomination Policy**”) which sets out the selection criteria and process and the Board succession planning considerations in relation to nomination and appointment of Directors of the Company and aims to ensure that the Board has a balance of skills, experience and diversity of perspectives appropriate to the Company and the continuity of the Board and appropriate leadership at Board level.

The Director Nomination Policy sets out the factors for assessing the suitability and the potential contribution to the Board of a proposed candidate, including but not limited to the following:

- character and integrity;
- qualifications including professional qualifications, skills, knowledge and experience that are relevant to the Company’s business and corporate strategy;
- diversity in all aspects, including but not limited to gender, age (18 years or above), cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service;
- requirements of independent non-executive Directors on the Board and independence of the proposed independent non-executive Directors in accordance with the Listing Rules; and
- commitment in respect of available time and relevant interest to discharge duties as a member of the Board and/or Board committee(s) of the Company.

CORPORATE GOVERNANCE REPORT

The Director Nomination Policy also sets out the procedures for the selection and appointment of new Directors and re-election of Directors at general meetings.

Dividend policy

The Company has adopted a dividend policy (the “**Dividend Policy**”) which sets out the approach to maintain a balance between meeting shareholders’ expectations and prudent capital management with a sustainable dividend policy. The Company does not have any pre-determined dividend payout ratio. The declaration of dividends is subject to the discretion of the Board. Any declaration of final dividend by the Company shall also be subject to the approval of the shareholders in a shareholders’ meeting.

The Directors may recommend a payment of dividends in the future after taking into account the Group’s operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions, capital expenditure and future development requirements, shareholders’ interests and other factors which they may deem relevant at such time. Any declaration and payment as well as the amount of the dividends will be subject to constitutional documents, any applicable laws and regulations, including the Cayman Islands Companies Law. Historical dividend distributions are not indicative of the future dividend distribution. Any distributable profits that are not distributed in any given year will be retained and available for distribution in subsequent years. To the extent profits are distributed as dividends, such portion of profits will not be available to be reinvested in the Group’s operations.

Corporate Governance Functions

The Board is responsible for performing the functions set out in the code provision A.2.1 of the CG Code.

During the Year, the Board reviewed the Company’s corporate governance policies and practices, training and continuous professional development of Directors and senior management, the Company’s policies and practices on compliance with legal and regulatory requirements, the compliance of the Model Code and Employees Written Guidelines, and the Company’s compliance with the CG Code and disclosure in this Corporate Governance Report.

The Directors will receive details of agenda items for decision in advance of each Board meeting. Board minutes are kept by the Company Secretary and are open for inspection by the Directors. Every Board member is entitled to have access to Board papers and related materials, and has unrestricted access to the advice and services of the Company Secretary, and has the liberty to seek external professional advice if so required. The Board is responsible for maintaining an on-going dialogue with shareholders and in particular, uses annual general meetings or other general meetings to communicate with them and encourage their participation. The Board notes that the Chairman of the Board and the chairpersons or, in their absence, other members of the Audit Committee, Nomination Committee and Remuneration Committee of the Company should attend the annual general meeting to answer questions and collect views of shareholders.

CORPORATE GOVERNANCE REPORT

RISK MANAGEMENT AND INTERNAL CONTROLS

The Board acknowledges its responsibility for the risk management and internal control systems and reviewing their effectiveness. Such systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board has the overall responsibility for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Company's strategic objectives, and establishing and maintaining appropriate and effective risk management and internal control systems.

The Audit Committee assists the Board in leading the management and overseeing their design, implementation, monitoring and effectiveness of the risk management and internal control systems.

The Company's risk management and internal control systems have been developed with the following features and processes:

- (a) The processes used to identify, evaluate and manage significant risks by the Group are summarised as follows:

Risk Identification: Identifies risks that may potentially affect the Group's business and operations.

Risk Assessment: Assesses the risks identified by using the assessment criteria developed by the management; and considers the impact and consequence on the business and the likelihood of their occurrence.

Risk Response: Prioritises the risks by comparing the results of the risk assessment; and determines the risk management strategies and internal control processes to prevent, avoid or mitigate the risks.

Risk Monitoring and Reporting: Performs ongoing and periodic monitoring of the risk and ensures that appropriate internal control processes are in place; revises the risk management strategies and internal control processes in case of any significant change of situation; and reports the results of risk monitoring to the management and the Board regularly.

- (b) The main features of the risk management and internal control systems are summarised as follows:

Control procedures have been designed to safeguard assets against misappropriation and disposition; ensure compliance with relevant laws, rules and regulations; ensure proper maintenance of accounting records for provision of reliable financial information used within the business or for publication; ensure that unauthorized access and use of inside information are strictly prohibited; and to provide reasonable assurance against material misstatement, loss or fraud.

CORPORATE GOVERNANCE REPORT

The Group has an internal audit function which conducts review on adequacy and effectiveness of the risk management and internal control systems of the Group. Such review is conducted annually and cycles reviewed are under rotation basis. During the year ended 31 December 2021, Management has conducted a review of the risk management and internal control systems of the Group and has reported findings and areas for improvement to the Audit Committee and the Board. The Board and the Audit Committee are of the view that there are no material internal control defects noted. All recommendations suggested are properly followed up to ensure that they are implemented within a reasonable period of time. The Board and the Audit Committee therefore considered that the Group's risk management and internal control systems are effective and adequate. The Board also satisfied that there are adequate resources with appropriate qualifications and experience in its accounting and financial reporting team and that sufficient training and budget have been provided.

The Company has developed its Information Disclosure Policy which provides guidelines and procedures to the Company's Directors, senior management and employees in evaluating and handling confidential information, monitoring information disclosure, handling market rumors, leakage of information and responding to enquiries. Control procedures have been implemented to ensure that unauthorised access and use of inside information are strictly prohibited. The Group has in place a restriction-to-access mechanism to ensure that inside information is restricted to authorised persons on a need-to-know basis in accordance with the nature of transactions.

DIRECTORS' RESPONSIBILITY IN RESPECT OF THE FINANCIAL STATEMENTS

The Directors acknowledge their responsibility for preparing the financial statements of the Company for the year ended 31 December 2021.

The Directors are not aware of any material uncertainties relating to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern.

The statement of the independent auditors of the Company about their reporting responsibilities on the financial statements is set out in the Auditor's Report on pages 91 to 96.

AUDITORS' REMUNERATION

The remuneration paid to the external auditor of the Company, Ernst & Young, in respect of audit services of the Group for the year ended 31 December 2021 amounted to RMB1,974,000. No non-audit services were provided by the auditors for the year ended 31 December 2021.

COMPANY SECRETARY

The Company engages an external service provider to provide company secretarial services and has appointed Mr. Tam Chun Wai Edwin as its company secretary. Mr. Tam is not an employee of our Group and he is responsible for advisory to the Group on corporate governance matters. Mr. Xiong Di, executive Director and chief financial officer of the Company, is the person who Mr. Tam can contact for the purpose of code provision C.6.1 of the Code.

Mr. Tam confirmed that he has complied with Rule 3.29 of the Listing Rules by taking no less than 15 hours of relevant professional training during the year ended 31 December 2021.

CORPORATE GOVERNANCE REPORT

SHAREHOLDERS' RIGHTS

The Company engages with shareholders through various communication channels.

To safeguard shareholder interests and rights, separate resolution should be proposed for each substantially separate issue at general meetings, including the election of individual Director. All resolutions put forward at general meetings will be voted on by poll pursuant to the Listing Rules and poll results will be posted on the websites of the Company and of the Stock Exchange after each general meeting.

Convening an Extraordinary General Meeting

Pursuant to Article 64 of the Articles of Association, The Board may, whenever it thinks fit, convene an extraordinary general meeting. Extraordinary general meetings shall also be convened on the requisition of one or more shareholders holding, at the date of deposit of the requisition, not less than one tenth of the paid up capital of the Company having the right of voting at general meetings. Such requisition shall be made in writing to the Board or a Secretary for the purpose of requiring an extraordinary general meeting to be called by the Board for the transaction of any business specified in such requisition. Such meeting shall be held within two months after the deposit of such requisition. If within 21 days of such deposit, the Board fails to proceed to convene such meeting, the requisitionist(s) himself (themselves) may do so in the same manner, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed to the requisitionist(s) by the Company.

Putting Forward Proposals at Annual General Meetings

There is no provision allowing shareholders to move new resolutions at general meeting under the Cayman Islands Companies Law or the Articles of Association. Shareholders who wish to move a resolution may request the Company to convene a general meeting following the procedures set out in the preceding paragraph.

Putting Forward Enquiries to the Board

Shareholders may send written enquiries and concerns to the Company by mail to the Company's principal place of business in Hong Kong at 4/F, Wah Yuen Building, 149 Queen's Road Central, Hong Kong.

INVESTOR RELATIONS

The Company considers that effective communication with shareholders is essential for enhancing investor relations and investor understanding of the Group's business performance and strategies. The Company endeavours to maintain an on-going dialogue with shareholders and in particular, through annual general meetings and other general meetings.

The Company has not made any changes to its Memorandum and Articles of Association during the year ended 31 December 2021. An up to date version of the Memorandum and Articles of Association is available on the Company's website and the Stock Exchange's website.

Policies relating to Shareholders

The Company has in place a Shareholders' Communication Policy to ensure that shareholders' views and concerns are appropriately addressed. The policy is regularly reviewed to ensure its effectiveness.

The Company has adopted a Dividend Policy on payment of dividends pursuant to code provision F.1.1 of the CG Code.

MATERIALITY ASSESSMENT ANALYSIS PROCEDURES

ASSESSMENT

In the process of making materiality assessment, we mainly refer to the ESG Reporting Guide issued by the Hong Kong Stock Exchange to identify material issues related to the Group and make relevant disclosures in this Report.

DETERMINE THE PRIORITY

Through a set of diverse approaches, including inviting our stakeholders to participate in online surveys on the materiality of sustainable development issues and to give advices on the Group's sustainable development policies. The results of the communication with stakeholders are consolidated and materiality matrix is prepared to define the overall materiality of each issue.

ANALYSE ASSESSMENT RESULTS

The conclusions of step 1 and step 2 are submitted to the senior management of the Group for discussion and assessment of material issues in this Report.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

1. Assessment

In order to understand the concerns of our key stakeholders and identify material issues of the Group, we had engaged an independent third party in past years to conduct an online survey, to undergo stakeholder engagement activities, so as to identify material issues of the Group. Based upon the previous outcomes of stakeholder communication activities, industry trends and the ESG Reporting Guide of the Hong Kong Stock Exchange, we have identified 27 ESG issues applicable to the Group. During the materiality assessment process, we invited internal and external stakeholders to rank the 27 issues through online survey questionnaires. We summarised the outcomes of the stakeholder surveys and developed a materiality matrix based on the analysis outcomes. The materiality matrix can reflect the real concerns of our stakeholders on ESG issues accurately, and the analysis outcomes are used as references for the Group's strategic planning and risk management assessment and serve as the basis for preparing this Report.

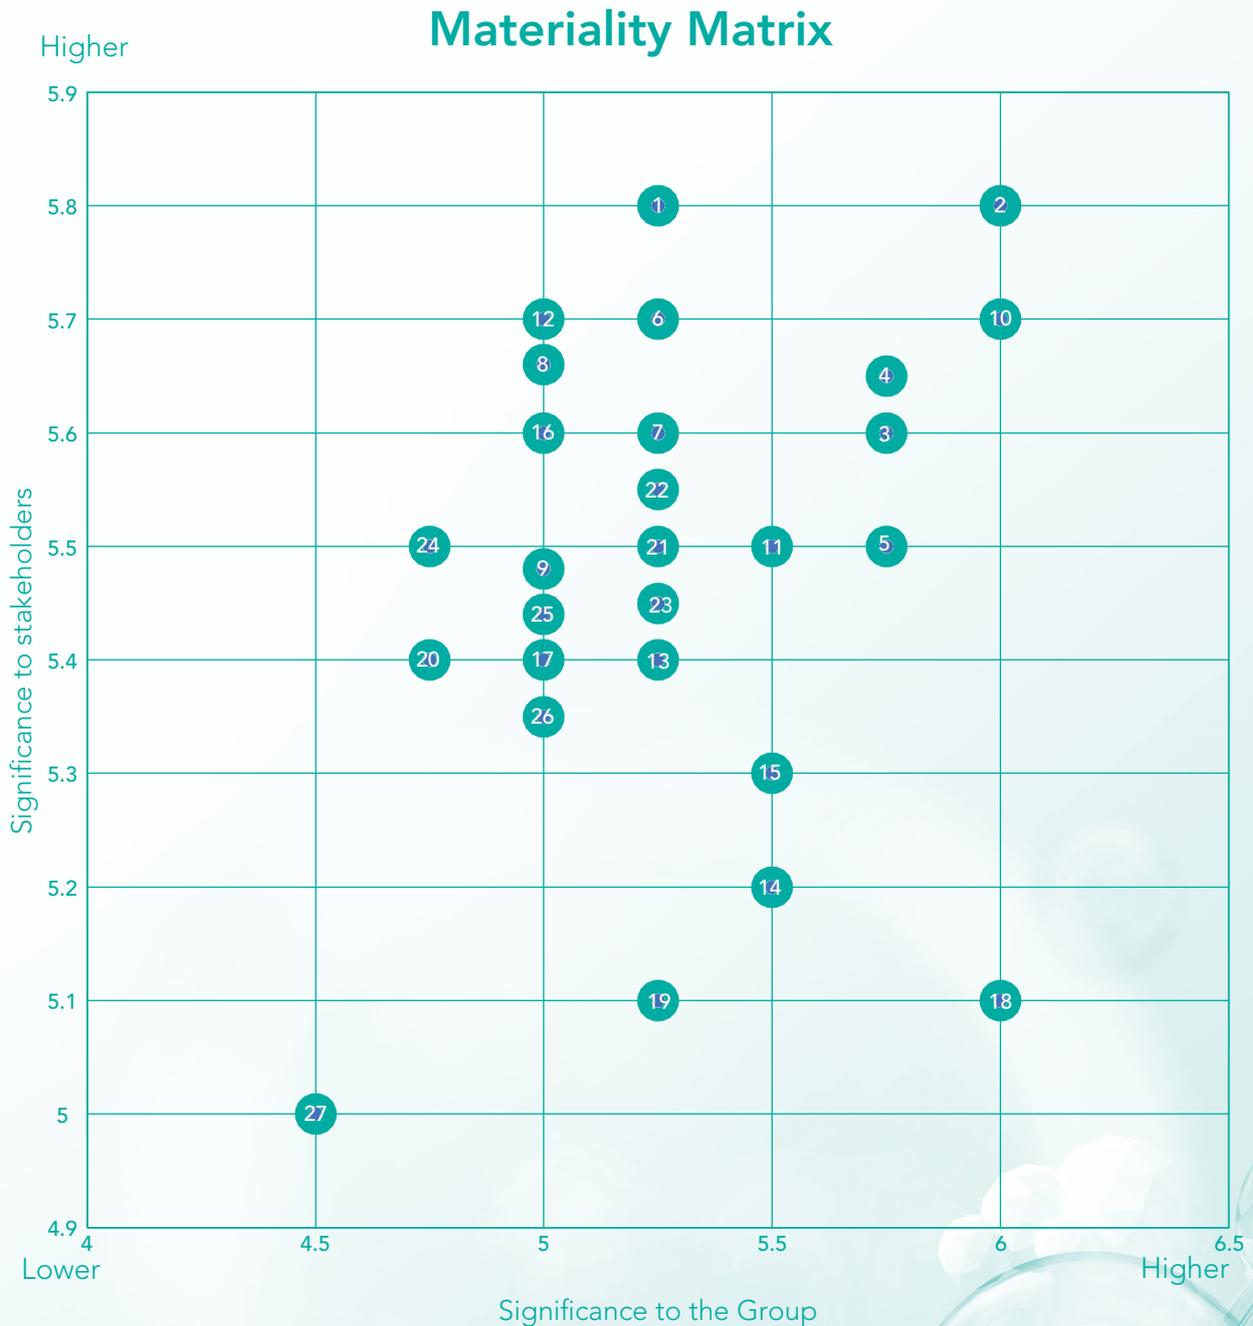

The following sets out the 27 issues related to the Group:

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

OUR COMMITMENT TO THE PUBLIC

Starting from 2020, the raging COVID-19 has undoubtedly had an unprecedented impact on tourism industry. As one of the leading players in the industry, the Group's business operations have been severely interrupted due to travel restrictions imposed by China and other countries in the world. Nevertheless, the Group is committed to continuing our corporate social responsibility and strives to provide customers with the highest-quality standard of products and services, and brings sustainable revenue growth to the shareholders. In respect of our services and product development, travel planning and procurement, sales and marketing, pre-travel arrangement and package tour operation, we all strictly abide by the Tourism Law of the PRC, the Regulation on Travel Agencies and other laws and regulations applicable to travel business.

Business Process

Development

- Conduct market research on new destinations and travel elements
- Design package tours based on market information and customer preferences
- Assess the availability of transportations, hotels, local tour companies and other suppliers

Planning and Procurement

- Search for transportations and hotel accommodations
- Select local tour companies with high quality
- Obtain local transportation suppliers and local attraction tickets

Sales and Marketing

- Brand and product marketing
- Hold briefing sessions for customer service officers, personal travel consultants, sales representatives, tour escorts and/or tour guides
- Sell package tours and other services to customers through retail branches, sales offices, mobile application, call centres, website, and other online sales platforms
- Acquire customers through multiple sales channels

Tour Arrangement

- Book air tickets, transportation, hotels, restaurants and attraction tickets
- Assign tour escorts and/or tour guides and arrange local tour companies for package tours
- Arrange pre-travel reception for customers
- Confirm bookings with transportation companies, ticketing agents and/or hotel operators

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Development

We actively conduct market research. We use the data collected to conduct forecast of the market, analyse the product preference of consumers and to initially determine the product type through the consumers' preference and reputation of travel product destinations and the outcomes of customer revisit survey. Meanwhile, we develop different travel products in line with national policies, to ensure product sustainability and compliance with relevant national guiding policies. We also conduct site visits to new and existing travel destinations to identify new travel destinations, new tourist attractions and other travel elements for inclusion in our package tours or FIT Products. When designing package tours, we take into account the feedback and recommendations from customers, tour escorts, tour guides and local tour companies and also pay close attention to the market trend and factors such as the availability of new hotels and attractions. We analyse the travel consumption patterns of our customers, match different travel elements such as domestic and international air tickets with different level of hotel accommodation, so that we can cater to changing customer needs and preferences. We introduce new or characteristic travel products from time to time to provide our customers with brand-new travel experiences. The Group has been developing and providing new and diversified travel products to further expand our customer base.

Planning and Procurement

Our suppliers include but not limited to airlines, ticketing agents, hotel operators, local tour companies and GDS service providers. Our package tour and FIT operation department liaise with airlines and ticketing agents to check the availability of flight seats and carry out detailed planning on selection of accommodation, local tour companies, ground transportation and restaurants. To ensure the quality of our products and services, our local tour companies can only arrange local transportation, food and beverage and hotel accommodation that meet our quality and safety standards. For potential suppliers, their service quality, safety standards, responsiveness, reliability and pricing are taken as the assessment criteria. On the other hand, feedback is also collected from tour escorts, tour guides and tour participants to continuously monitor the performance of each supplier and identify substandard travel elements in a timely manner. For our new package tours and products, our package tour and FIT operation department brief our customer service officers and personal travel consultants to enable them to understand the characteristics of each product and hence provide suitable suggestions and assistance to our customers.

Sales and Marketing

We sell our travel products and services to individual customer through our retail branches, sales offices, website, mobile application and other online sales platforms. We have an information management system which is able to update the latest enrolment status of each sales channel and the availability of package tours, air tickets and hotel accommodations on a real-time basis to assist our frontline personal travel consultants in the sales of our travel products and services. At the same time, our customer service officers and personal travel consultants also input all customer preferences, details and sales data into the system on a real-time basis for follow-up in future.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Tour Arrangement

Package tour booking is generally confirmed around one month prior to departure. Once a tour is confirmed, we will assign tour escorts and tour guides and liaise with the local tour companies. Local tour companies generally operate package tours in accordance with our approved hotel, food and beverage, local transportation and activity specifications. For domestic tours within Zhejiang province, surrounding areas outside Zhejiang province and Beijing, we are primarily responsible for arranging local transportation, food and beverage and hotel accommodations. Tour escorts and tour guides employed by us will accompany the package tours members throughout the entire tour and pay close attention to their needs.

“Feiyang” Marketing Platform

We are committed to continuously promote our “Feiyang” brand as a well-known brand, representing one-stop professional and personalised travel products and services. We believe brand recognition is decisive to our ability to attract customers. We adopt marketing strategies such as media advertising, organising travel expos and joint promotional events with our suppliers, displaying at our tourism square, retail branches and sales offices to enhance our brand recognition and promote our business. In accordance with the Advertising Law of the PRC, we have assigned marketing managers to review advertising information and marketing materials before publication to ensure that the content is free from false, misleading, untrue and exaggerated statement and infringement of intellectual property rights.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

On-going Assessment

We hope to create pleasant journey to the public to further improve customer satisfaction. We have adopted a complaint handling system to enhance customer satisfaction and to resolve any disagreements in an amicable manner. Also, we have formulated the Measures for the Handling and Prevention of Complaints (Revision) to standardize the complaint handling process and reward and punishment system, so as to ensure that customer feedback is properly handled. During the Reporting Period, we received a total of 46 complaints (2020: 67 complaints) concerning travel products and services. Other than the regulations mentioned above, in order to more effectively monitor and improve the quality of our products and services, we actively collect opinions from different channels and carry out on-going assessment as following:

Our customer service officers will conduct telephone interviews with our customers within one week after the completion of the tour to collect their feedback on the quality of our products and services

Customers can also provide their feedback through our customer service hotline, website or mobile application at any time

Our tour escorts and tour guides are also required to provide a Travel Completion Report on the service quality of our suppliers

The local tour companies engaged by us would provide comments on each tour from time to time and forward any feedback from our customers, tour escorts and tour guides to us

Everything is terrific, including the travel schedule arrangements and the service of the tour guide and travel consultant.

It suits the elderly with good attitude of the local tour guide and reasonable travel schedule arrangements.

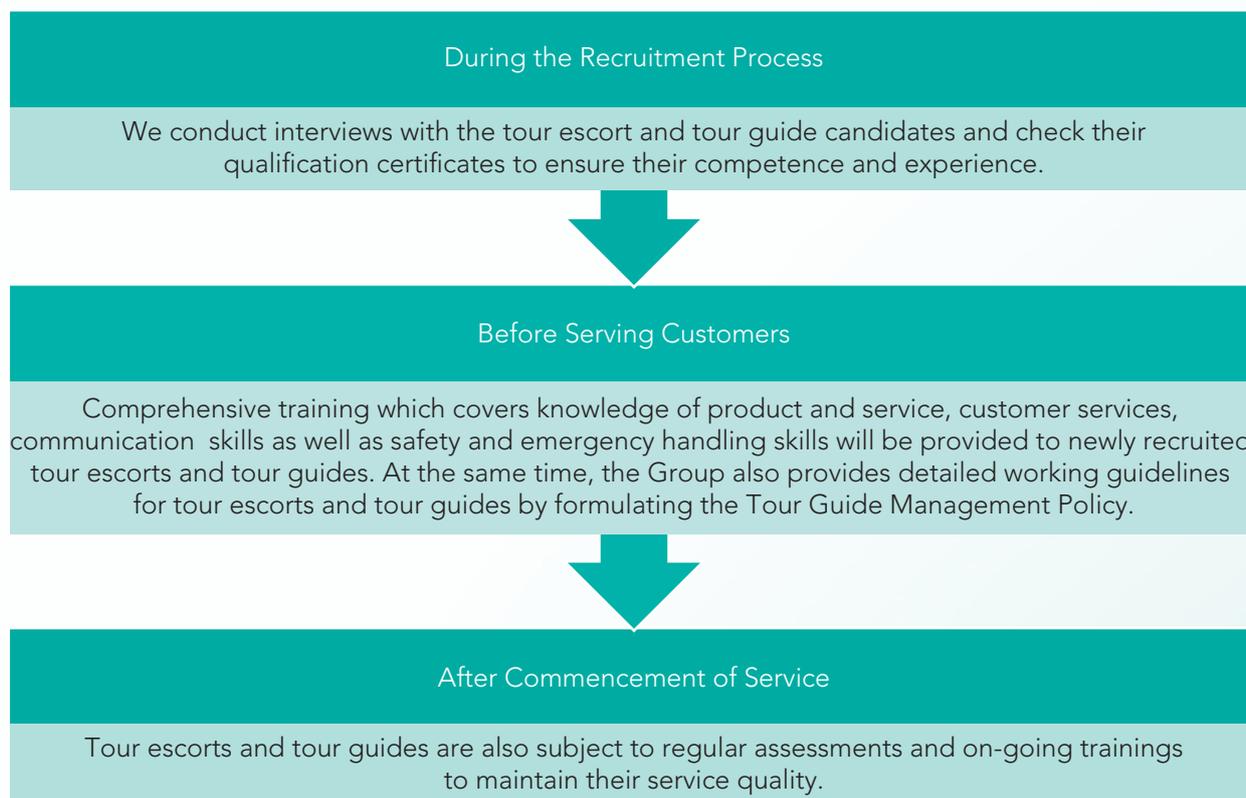

I am very satisfied with this pretty pleasure travel, for both its travel schedule arrangements and the introduction of the tour guide.

It is a satisfactory travel, for its tour guide services including dining inspection and seat belt reminding are satisfying, and its salesperson is enthusiastic and professional.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Management of Tour Escorts and Tour Guides

We adopt a series of quality control measures on our tour escorts and tour guides to ensure the quality of our products and services.

In accordance with the Regulations on the Administration of Tour Guide Personnel, the Regulations on Travel Agencies and the Implementation Rules of the Regulations on Travel Agencies, we only hire tour escorts and tour guides who have passed the national general tour guide qualification examination and hold valid tour guide qualification certificates. In addition, we arrange tour escorts to accompany our tour teams when organising outbound tours for Mainland Chinese residents. In addition to holding a tour guide qualification certificate, the tour escorts we engaged need to have more than two years of relevant experience in the industry, so as to ensure that the tour escorts can provide professional and quality services for our tour group members.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Safe Tourism

In addition to establishing a safety management system and a responsibility system according to laws and regulations such as the Tourism Law of the PRC and Fire Protection Law of the PRC, the Group has also adopted various measures against the Epidemic under Guidelines for the Prevention and Control of Epidemic Situations in the Reopening of Tourist Attractions to lower the risks to our customers' safety and health.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Safeguard Measures

Enhancing Organisational Leadership

- Local cultural and tourism administrative departments should strictly implement their local management responsibilities, strengthen the linkage with local hygiene and health departments, enhance collaboration of competent authorities between tourism destinations and customer sourcing markets to enhance prevention, control and emergency response capabilities and ensure a smooth and orderly resumption of operations.

Strengthening Supervision and Inspection

- In accordance with the “One Tour, One Report” system, filling in the tour group information on the National Tourism Regulatory Service Platform and upload the electronic contract.

More Frequent Daily Scheduling

- We will work with the local culture and tourism administrative departments to carry out emergency drills, risk identification and risk assessment in accordance with the prevention and control plan and the emergency response plan, so as to identify and deal with emerging problems in a timely manner. Abnormalities will be reported in a timely manner and the relevant business activities will be suspended.

Change or Cancellation of Travel

In early 2020, we suspended the operation of tourism products such as group tour and “air ticketing and hotel booking” to cooperate with the notice issued by the Ministry of Culture and Tourism of the People’s Republic of China on the prevention and control the pneumonia outbreak caused by outbreak of COVID-19. During the middle of the year 2020, we started to resume cross-provincial (regional and municipal) group tours after following the notice from the Ministry of Culture and Tourism. 70% of the tours were cancelled due to the travel bans, quarantine and entry requirements, accounting for 70% of our tours under operation in 2020.

Protection of Consumer Information

In the course of business operations, the Group obtains a large amount of personal information of customers. In order to protect such information from leakage or illegal use, we have formulated the Information System Security Management Mechanism and the Information System Lapse or Disaster Emergency Response System in accordance with the Measures on Internet Information Service and the Regulations for the Protection of Personal Information of Telecommunication and Internet Users and have arranged for a team of specialized personnel to be responsible for their implementation to strengthen the security management of the information system in order to maintain and encrypt confidential corporate information such as customers’ personal information. The Group’s staff members are also required to sign a Confidentiality Agreement to undertake the obligation of confidentiality of sensitive and confidential documents of the Company.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Observing and Protecting Intellectual Property Rights

The Group emphasized on the protection of intellectual property rights. We have formulated the Intellectual Property Management System in accordance with the Trademark Law of the PRC to regulate the management, registration and application of intellectual property rights including trademarks and self-developed computer software, as well as the handling process of infringement cases. We also arrange our employees to attend trainings on intellectual property rights annually. In advertising and marketing materials, we may use online materials or images or materials provided by our suppliers, such as articles and video clips. In accordance with the Tort Law of the PRC, we have developed the review process to ensure that no unauthorized materials are used in our advertisements. As of 31 December 2021, we were the registered owner of 14 trademarks in the PRC and 9 trademarks in Hong Kong (2020: 14 trademarks in the PRC and 7 trademarks in Hong Kong).

Supplier Management

The Group recognizes that the role of its business partners, including suppliers, are same as material to providing quality products and services to its customers. The Group has formulated the Supplier Management System and the Procurement Management System to regulate supplier management. We obtain supplier information through online platforms, peer consultation, open tendering and employee recommendation. We adhere to the principles of fairness, impartiality, openness and transparency in our supplier assessment process. We require new suppliers to provide qualification documents such as business license and quotation and conduct on-site inspection. To reduce the environmental and social risks of the supply chain, we only cooperate with suppliers with common moral values and standards. We take into consideration of various factors, including qualification, pricing, resources, services, mutual business synergies, brand reputation, settlement clauses and compliance, and only the suppliers who meet the Group's requirement will be included in the Qualified Supplier Register.

In addition, we conduct regular performance reviews on qualified suppliers to manage and control their performance. We require our tour escorts and tour guides to provide a Travel Completion Report on the service quality of our suppliers upon the end of the tour, and conduct assessments on our suppliers annually. In the event that we experience significant safety incidents during our cooperation with our suppliers, or frequently receive negative evaluations from our tour escorts or tour guides or itinerary managers, we will consider removing these suppliers from the Qualified Supplier Register or terminating our cooperation with them.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

OUR COMMITMENT TO THE STAFF

We continue to invest resources for staff, and are committed to providing good career opportunities, with a view of building a multicultural and inclusive industry-leading team. The Group actively protects the legitimate rights and interests of employees, and adheres to the Labour Law of the PRC, the Labour Contract Law of the PRC and other laws and regulations on employment and labor practices. We enter into labour contracts with employees based on the principles of equality and consensus, establishes its labour safety and health system, strictly implements national rules and standards on labour safety and health, provides employees with labour safety and health education, prevents accidents during employment and reduces occupational hazards.

Talent Attraction

As a responsible employer, the Group provides equal job opportunities in recruitment, training, promotion, transfer, remuneration, benefits and termination of contract, regardless of gender, disability, family status, marital status, pregnancy, race, religion, age, nationality and sexuality. The Group adopts the fair and open recruitment policy, and promotes diversity and inclusion, to ensure the employment opportunities for all kinds of people in society, in particular experienced and qualified tour escorts, tour guides, personal travel consultants and other operational management talents. We recruit our employees primarily through campus recruitment, online recruitment, social recruitment and internal recruitment.

To protect the rights and interests of our staffs, we have formulated the Human Resources System and the Staff Handbook to regulate the code of conduct for our staffs. If the employee resigns, we will terminate the labor relationship with the employee in accordance with the Labor Law of the PRC, and give the employee economic compensation according to the relevant national regulations. In general, the Group will only dismiss employees if they are in serious violation of labor discipline.

The Group attaches great importance to staff development, is committed to provide employees with equal working environment, offer competitive salary treatment based on their duties, skills, and the participation of business of the Group, and provide opportunities to be promoted based on their performance contribution, ability, working attitude and business proficiency. For management personnel, we will promote them based on team building, talent cultivation and departmental performance.

Talent Retention

In order to attract and retain our valuable and talented employees, we review the remuneration packages regularly and implement a structure-based remuneration system of the tourism industry. Through an incentive compensation plan, we link performance with compensation and emoluments, and adjust the compensation system annually according to the performance and contribution of our employees and market trends. In principle, the basic salary and job allowance of the Group remain unchanged, and will be adjusted based on the annual efficiency (with priority in efficiency while giving consideration to fairness as the adjustment principle) and work contribution. We implement a system of five-day work per week with alternate holiday on Saturday on a department rotation basis. We also make contribution to social insurance for our employees, including pension, medical, unemployment, work injury, maternity insurance and housing fund prescribed by the local government.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The Group attaches great importance to the physical and mental health of its employees and is committed to providing a pleasant working environment and promoting a work-life balance. In addition to national statutory holidays, employees can also apply for sick leave, casual leave, marriage leave, maternity leave, nursing leave and funeral leave as needed. There is a small book access centre at the Group's headquarter, where our employees can access books with specialised knowledge and lifestyle books. For employees who need to work outside during high temperature seasons (such as tour guides and drivers) they are also entitled to the high temperature fee prescribed by the State as compensation. The Group will organise and distribute other welfare activities or holiday benefits irregularly in irregular forms according to the specific situation and personnel.

During the Reporting Period, we were not aware of any significant non-compliance or violation of laws relating to compensation and dismissal, recruitment and promotion, working hours, rest periods, equal opportunity, diversity, anti-discrimination, and other benefits and welfare.

Prevention of Child and Forced Labour

The Group strictly adopts a zero-tolerance policy towards the use of child and forced labour, and prohibits the use of child labour or forced labour as banned by the Law of the PRC on the Protection of Minors, the Regulations on Labour Security Supervision, the Provisions on the Prohibition of Using Child Labour and other relevant regulations. The human resources department of the Group verifies the age of the candidate during the recruitment process and enables the employed employees to sign labour contracts with specified working hours on a voluntary basis, which are also constantly monitored and reviewed by the Group. In case of any non-compliance, the Group will take immediate measures to terminate his/her work.

During the Reporting Period, we were not aware of any significant non-compliance or violation of laws in relation to prevention of child or forced labour.

Development and Training

The Group believes that development and equipment of staff is very important to the sustainable development, so we place great emphasis on staff training, arrange internal training courses for all employees on a regular basis, to enhance our employees' skills and knowledge in sales, marketing, customer management, customer service, product information, quality control and industry knowledge, thereby providing support for employees' personal career development and the business development needs of the Group. In order to regulate the training management of the Group, we have formulated the Training Management System to further regulate the mode of training of the Group. We provide training to our employees based on three principles, namely effectiveness, practicality and pertinence.

In order to enhance the quality of our employees, the Group launched a series of long-term and regular training programs for the entire company, each centre (group), each position and new employees during the Reporting Period, while implementing the requirements of "training accompanied by examination" and "examination shall be passed before employment". The Group's overall training framework, planning and supervision are carried out by the human resources department, and training for each department (such as training for product manager, product training for private customers, tour guide training, etc.) must be reported to the human resources department and included in the overall plan. The first phase of employee training was organized by the Group in collaboration with the Institute of Business Technology, including training on presentation production and other office software enhancement.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Health and safety

The Group advocates the “people-oriented” and adheres to the safety production policy of “Safety first, prevention dominant, comprehensive management”. According to the Work Safety Law of the PRC, the Group has established a safety supervision and management mechanism, formulated rules and regulations on safety work and set up relevant organizations. In response to the pandemic, the Group has also taken various measures to minimize safety and health risks in accordance with the “Guidelines for the Prevention and Control of Pandemic in Tourist Attractions Resuming Opening”.

Strengthen the management of office and business premises

- Implement prevention and control responsibilities, formulate internal pandemic prevention and control plans and contingency plans, and do a good job in hygiene cleaning, disinfection and ventilation in the office premises and service outlets of travel agency.
- Reduce the frequency and length of meetings and use web-based meeting tools whenever possible.
- The points of sale assign the responsibility of each link during pandemic prevention and control, including daily duty, cleaning and disinfection, testing and registration, rubbish cleaning, site inspection and safety management to an individual, and make timely and dynamic adjustments in accordance with the local pandemic prevention and control requirements.

Implement employee monitoring

- Travel agencies should manage the health condition of their employees in accordance with the local requirements, and establish a “Health Record Form” and conduct daily temperature checks to track their health status and travel trajectory.
- If employees have fever, cough, fatigue, stuffy nose, runny nose, sore throat, diarrhoea and other related symptoms, they will be promptly arranged for medical treatment at the nearest designated medical institution and we will follow up on the situation.
- Conduct health code checks before tour guides report duty and require them to wear masks properly.

Strengthen education and training

- Regularly organize special training on pandemic prevention and control measures and emergency response, and urge employees to understand the knowledge of pandemic prevention and control, personal protection, hygiene and health and emergency response, so as to improve their ability in pandemic prevention and control and emergency response.
- Clarify the responsibilities of tour guides, refine the duties of their positions and do a good job in providing services such as full escort and ground escort services.

During the Reporting Period, we were not aware of any non-compliance or violation of regulations by the Group in relation to providing a safe working environment and protecting employees from occupational hazards, and we were not aware of any work-related injury incidents or work-related fatalities .

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Anti-corruption

The Group adopts a “zero tolerance” attitude towards bribery and extortion. All directors, management and employees must act with integrity and ethical business conduct, and comply with the relevant laws and regulations applicable to the Group’s place of business on the prevention of bribery, extortion, fraud and money laundering, including the Criminal Law of the PRC.

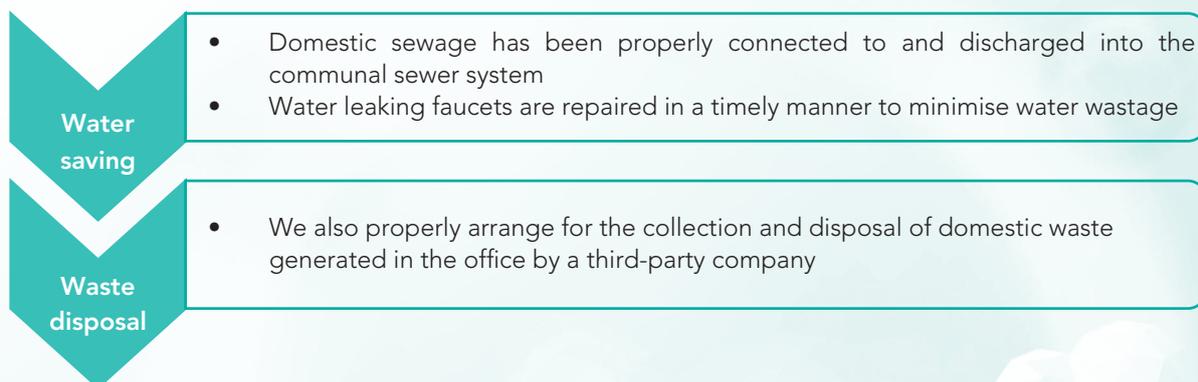

In order to effectively prevent operation and management risks, the Group has formulated the “Identification and Reporting Mechanism for Misconduct”, which aims to provide a confidential and reliable reporting mechanism for employees to prevent any unethical conduct. We encourage employees to take an active part in the management of the Company, and to timely supervise and report internal operation defects or violations in the company, so as to ensure that the Group operates in compliance with laws and regulations. Employees can report any irregularities in writing or verbally at any time to the Group’s internal reporting management leading group office. The Group will endeavour to protect the identity of whistleblowers, will not allow retaliation against whistleblowers who have acted in good faith, and will follow investigative procedures to ensure that all complaints are promptly and fairly dealt with. For employees who report major violations of laws and regulations and successfully prevent the case, we will directly reward the personnel within two weeks after the case is settled.

During the Reporting Period, we were not aware of any non-compliance or violation of regulations in relation to the prevention of bribery, extortion, fraud and money laundering, and we were not aware of any corruption litigation involving the Group or our employees.

OUR COMMITMENT TO THE ENVIRONMENT

The Group recognizes that proper management of energy and resources is critical to sustainable development, and therefore strives to improve our energy and resource management in order to minimize the environmental impact of our business operations and promote environmental awareness throughout the Group. The Group has taken measures to protect the environment in compliance with the Environmental Protection Law of the PRC and other relevant laws and regulations.

Due to the nature of our business, the Group’s daily operations are mainly office-based, and the major greenhouse gas emissions come from the use of electricity in offices and a small number of business vehicles, while vehicles also generate air emissions. The Group’s main water consumption comes from domestic water in the office. We have not encountered any problem in sourcing suitable water.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

With focusing on energy efficiency, water conservation and office resources conservation, we have implemented various environmental protection measures. In order to fully fulfil the responsibility of environmental protection, we have incorporated the requirements of energy conservation and environmental protection into employee assessment with an expectation of that:

- Set the temperature of air conditioner at or above the specified temperature showed on air conditioner
- Turn off personal office equipment including lights, air conditioners, power of computers in non-operation areas beyond working hours
- Maintain cleanliness in public areas such as meeting rooms and employees' homes, including turning off equipment such as air conditioners, projectors, electric lights in the area
- Replace the printer cartridge when the printer is exhausted
- Make good use of the IT systems and electronic communication equipment and only use paper when necessary to avoid paper waste

The above environmental and resource-saving measures have not only helped the Group gradually improve its environmental performance, but also promoted the sustainable utilisation of natural resources effectively, and further enhanced the environmental awareness of employees. During the Reporting Period, we were not aware of any material non-compliance in relation to air and greenhouse gas emissions, discharges into water and land, and generation of hazardous and non-hazardous waste.

In view of our continuous effort, we target to maintain zero substantial non-compliance case in relation to the emission of exhaust gases, GHG and energy consumption in coming five years.

OUR COMMITMENT TO COMMUNITY

The Group understands the importance for making positive contribution to the community where it operates and considers that enterprises and communities are inseparable, and enterprise development is also inseparable from the support and assistance of the community. In order to better fulfill its social responsibilities, the Group takes into consideration of the local culture, environment and priorities of community when developing, selling and providing travel service with the aim to help the communities where it operates to create a harmonious, dynamic and livable environment. The Group will continue to maintain an appropriate level of community involvement and the long-term sustainable development of its operation and the community, as well as encourage its employees to participate in community contribution activities that contribute to achieving work-life balance

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

OUR COMMITMENT TO CLIMATE CHANGE

The Group is committed to mitigating the climate change and enhancing its resilience to adapt to the increasing threat of climate-related consequences.

The processes used to identify, evaluate and manage significant risks (including significant climate-related issues) by the Group are summarised as follows:

Risk Identification: Identifies risks that may potentially affect the Group's business and operations.

Risk Assessment: Assesses the risks identified by using the assessment criteria developed by the management; and considers the impact and consequence on the business and the likelihood of their occurrence.

Risk Response: Prioritises the risks by comparing the results of the risk assessment; and determines the risk management strategies and internal control processes to prevent, avoid or mitigate the risks.

Risk Monitoring and Reporting: Performs ongoing and periodic monitoring of the risk and ensures that appropriate internal control processes are in place; revises the risk management strategies and internal control processes in case of any significant change of situation; and reports the results of risk monitoring to the management and the Board regularly.

As a result of above risk management process, physical risk and transitions risks arising from climate change may not bring significant impacts to the Group's business. As a supporter of the recommendations of the Taskforce on Climate-Related Financial Disclosure (TCFD), the Group has assessed the potential climate related risks and identified the rising mean temperature and increasing severity and likelihood of extreme weather events such as rainstorms as major physical risks impacting our daily operation.

The management is responsible for identifying and assessing any climate-related risks to which the Group's operations are exposed, and updating the Board with the latest news and developments on climate regulations and industry benchmark. In order to cope with climate-related risk, the Group implemented various emergency response mechanism and purchased adequate social security benefits against natural disasters for our employee during working hour in order to cope with extreme weather.

In the future, we will continue to identify potential business activities impacting the environment and develop corresponding improvement measures, so as to further prevent the possible negative impacts of our operation on climate change.

Notes

1. The calculation of environmental KPIs are with reference to "A Corporate Accounting and Reporting Standard" from The GHG Protocol and the "How to prepare an ESG Report — Appendix 2: Reporting Guidance on Environmental KPIs" issued by the HKEx.
2. The Group's business involved a small number of business vehicles which produce exhaust emissions and consume petrol. However, no relevant data was disclosed in 2020. By considering the materiality principles, relevant data is disclosed in 2021.
3. During the Reporting Period and corresponding period in 2020, as the Group's non-hazardous waste data collection system is still being improved, it only includes the non-hazardous waste data generated by the Group's headquarter offices. We will continue to optimise the relevant data statistics of other operating points and include relevant disclosures in the report in due course.
4. During the Reporting Period and corresponding period in 2020, as the Group leases different office areas for operation, water supply and power supply are controlled by the building's management office and some related management offices are unable to provide water and electricity consumption data to individual tenant. Therefore, the water and electricity consumption data only cover 7 and 8 operating points respectively.
5. In accordance with the consistency principle, certain data of 2020 was restated to reflect the adoption of a more accurate floor area of head quarter of 6,158 square meters for calculation of intensity.

Note

Those social KPIs is subject to recommended disclosures in 2020 and thus not available for disclosure purpose.

As shown in the tables above, the key environmental (e.g. energy consumption) and social performance (e.g. number of employee) of the Group for the year showed a downward trend, which was mainly due to the negative impact as a result of the outbreak of the COVID-19 since the end of 2019. Meanwhile, in order to mitigate the financial impact of COVID-19, the Group has adjusted its business strategy and adopted cost-saving measures. The Group encourages its employees to take unpaid leave to indirectly reduce the environmental impacts of its operation.

REPORT OF THE DIRECTORS

As at 31 December 2021, so far as is known to the Directors, other than the Company, no other persons were interested in 10% or more of any class of share capital carrying rights to vote in all circumstances at general meetings of any of the subsidiaries.

Save as disclosed above, as at 31 December 2021, the Company had not been notified by any persons (other than Directors or chief executive of the Company) who had interests or short positions in the Shares or underlying shares of the Company which would fall to be disclosed to the Company under the provisions of Divisions 2 and 3 of Part XV of the SFO, or which were recorded in the register required to be kept by the Company under Section 336 of the SFO.

SHARE OPTION SCHEME

The Company has a share option scheme (the “**Share Option Scheme**”) which was approved and adopted by the shareholders of the Company by way of written resolutions passed on 11 June 2019. The Share Option Scheme enables the Company to grant options to the Directors, the directors of the Group’s subsidiaries and employees of any member of the Group and any other persons (including consultants or advisers) (the “**Eligible Participant**”) as incentives or rewards for their contributions to the Group. The Board, at its absolute discretion and subject to the terms of the Scheme, shall be entitled, at any time within ten years commencing from the date the Share Option Scheme was adopted, to make an offer for the grant of an option to any Eligible Participant.

As at the date of this annual report, the total number of shares available for issue under the Share Option Scheme is 50,000,000 shares, representing 8.33% of the enlarged issued share capital of the Company. The maximum number of shares that may be granted by the Company to any one Eligible Participant shall not exceed 1% of the issued share capital of the Company from time to time.

Upon acceptance of an option to subscribe for shares granted pursuant to the Scheme (the “**Option**”), the Eligible Participant shall pay HK\$1.00 to the Company by way of consideration for the grant. The Option will be offered for acceptance for a period of 21 days from the date on which the Option is granted. The subscription price for the shares subject to Options will be a price determined by the Board and notified to each participant and shall be the highest of: (i) the closing price of the shares as stated in the Stock Exchange’s daily quotations sheet on the date of grant of the Option, which must be a day on which trading of shares take place on the Stock Exchange (the “**Trading Day**”); (ii) the average closing price of the shares as stated in the Stock Exchange’s daily quotations sheets for the five Trading Days immediately preceding the date of grant of the Options; and (iii) the nominal value of a Share on the date of grant, provided that in the event that any Option is proposed to be granted within a period of less than five Trading Dates, the new issue price of the Shares shall be used as the closing price for any business day falling within the period before listing of the Shares on the Stock Exchange.

The Company shall be entitled to issue options, provided that the total number of shares which may be issued upon exercise of all Options to be granted under the Share Option Scheme does not exceed 10% of the shares in issue from the date of the Listing. The Company may at any time refresh such limit, subject to the shareholders’ approval and issue of a circular in compliance with the Listing Rules, provided that the total number of shares which may be issued upon exercise of all outstanding Options granted and yet to be exercised under all the share option schemes of the Company does not exceed 30% of the shares in issue at the time. An Option may be exercised in accordance with the terms of the Share Option Scheme at any time during a period as the Board may determine which shall not exceed ten years from the date of grant subject to the provisions of early termination thereof.

Further details of the Share Option Scheme are set out in Appendix V to the Prospectus. Since the adoption of the Share Option Scheme and during the Year, no Option has been granted, exercised, lapsed or cancelled, and as at 31 December 2021, no Options under the Share Option Scheme were outstanding.

REPORT OF THE DIRECTORS

PRE-EMPTIVE RIGHTS

There is no provision for pre-emptive rights under the Articles of Association of the Company or the laws of Cayman Islands.

EQUITY-LINKED AGREEMENTS

During the Year, save for the Share Option Scheme, the Company did not enter into any equity-linked agreements in respect of shares of the Company.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted the Model Code as set out in Appendix 10 to the Listing Rules as its own code of conduct regarding securities transactions by the Directors. All Directors have confirmed, following specific enquiry by the Company, that they have complied with the required standard set out in the Model Code during the Year.

DEED OF NON-COMPETITION

As disclosed in the Prospectus, the controlling shareholders of the Company ("**Controlling Shareholders**") entered into a deed of non-competition in favour of the Company on 11 June 2019 (for itself and as trustee for its subsidiaries) (the "**Deed of Non-Competition**"). Each of the Controlling Shareholders confirmed to the Company that they have complied with the Deed of Non-Competition during the Year.

Pursuant to the Deed of Non-Competition, each of the Controlling Shareholders has irrevocably and unconditionally undertaken to the Company (for itself and as trustee for its subsidiaries) that, subject to certain exceptions, during the period that the Deed of Non-Competition remain effective, each of the Controlling Shareholders shall not, and shall procure that their associates (other than any members of the Group) not to, directly or indirectly, carry on, participate in, be engaged, be interested directly or indirectly, either for their own account or in conjunction with or on behalf of or for any other person in any business in competition with or likely to be in competition with the existing business activity of any member of the Group.

Our independent non-executive Directors have reviewed the declarations made by the Controlling Shareholders regarding the compliance of the Deed of Non-Competition and were satisfied that the terms of the Deed of Non-Competition had been duly complied with and enforced during the Year.

COMPETING INTERESTS

During the Year, so far as the Directors are aware, none of the Directors, the Controlling Shareholders and substantial shareholders of the Company, and their respective close associates (as defined under the Listing Rules) had held any position or had interest in any businesses or companies that were materially competing or might materially compete with the business of the Group, or gave rise to any concern regarding conflict of interest.

REPORT OF THE DIRECTORS

COMPLIANCE WITH THE CONTRACTUAL ARRANGEMENTS

During the Year, the Group has complied with the contractual arrangements as disclosed in the section headed "Contractual Arrangements" in the Prospectus (the "**Contractual Arrangements**") and the Foreign Investment Law of the PRC (《中華人民共和國外商投資法》) ("**FIL**") and its accompanying explanatory notes. The Group will continue to monitor the latest development of the FIL and its accompanying explanatory notes and provide timely updates of the latest regulatory development.

During the Year, there is no material change regarding the Structured Contracts and the Contractual Arrangements.

According to the Provisions on the Administration of Foreign-funded Telecommunications Enterprises (2016 Revision) (《外商投資電信企業管理規定(2016 修訂)》), foreign investors are not allowed to hold more than 50% of the equity interests in a company providing value-added telecommunications services. In addition, a foreign investor who invests in a value-added telecommunications business in the PRC must possess prior experience in operating value-added telecommunications businesses and a proven track record of business operations overseas (the "**Qualification Requirements**").

Efforts and Actions Undertaken to Comply with the Qualification Requirements

Despite the lack of clear guidance or interpretation on the Qualification Requirements, the Group has committed and will continue to commit financial and other resources and implement all necessary steps to meet the Qualification Requirements, for instance:

- (i) Feiyang HK Group Limited ("**Feiyang HK**") was incorporated in Hong Kong in November 2018 for the purposes of establishing and expanding the Group's operations in Hong Kong;
- (ii) the Group has applied for the registration of a number of trademarks in Hong Kong and have successfully registered a number of them;
- (iii) Feiyang HK has applied for a number of domain names and intend to set up a website primarily for introducing and promoting our business in Hong Kong;
- (iv) the Group has been conducting market research on the tourism industry in Hong Kong and liaising with various advisers for establishment of travel agency operations in Hong Kong ; and
- (v) Feiyang HK will make an application for the Travel Agents Licence in Hong Kong for the purposes of establishing the Group's travel agency operations in Hong Kong.

REPORT OF THE DIRECTORS

SIGNIFICANT INVESTMENTS, MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES, AND FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

In March 2021, Ninglv Feiyang and a state-owned company under the Government of Beilun District, Ningbo entered into a cooperation agreement for setting up Ningbo Qingning, a joint venture company which is principally engaged in the development and operation of cultural tourism projects located in Beilun District, Ningbo, the PRC and investment in the Jiufeng Project. Ninglv Feiyang owns 70% of the registered capital of the joint venture company. For further details, please refer to the announcements of the Company dated 22 March 2021 and 29 March 2021.

In December 2021, the Group and 3all FinTech Limited entered into the cooperation agreement, pursuant to which the Group and 3all FinTech Limited have agreed to inject HK\$30 million into Feiyang Metaverse Technology, a joint-venture company which is principally engaged in the development of an ETD Metaverse foundation platform, provision of data-storage services under the platform, and development of Metaverse games and hardware equipment for virtual reality technology. For further details, please refer to the announcement of the Company dated 22 December 2021.

Save as disclosed in this report, as at 31 December 2021, the Group did not hold any significant investment that accounted for more than 5% of the Group's total assets as at 31 December 2021, and there were no other significant investments, material acquisitions and disposals by the Company during the Year, nor there was any other future plans for material investments or additions of capital assets at the date of this report.

RELATED PARTY TRANSACTIONS

Details of the related party transactions undertaken by the Group during the Year are set out in note 30 to the consolidated financial statements in this annual report. None of such related party transactions constitutes connected transaction which is subject to the reporting, annual review, announcement, circular and/or shareholders' approval requirements under Chapter 14A of the Listing Rules. It is confirmed that the Company has complied with the disclosure requirements in accordance with Chapter 14A of the Listing Rules.

REPORT OF THE DIRECTORS

CONNECTED TRANSACTIONS

During the Year and up to the date of this annual report, the Company and the Group had the following continuing connected transactions:

Continuing connected transactions

Contractual Arrangements

Reasons for using the Contractual Arrangements

Due to regulatory prohibitions on foreign ownership in the outbound travel business and the domestic passenger air ticketing services from air ticketing business and restrictions on foreign ownership in the international passenger air ticketing services from air ticketing business in the PRC, the principal business carried out by Zhejiang Feiyang International Travel Group Co., Ltd., Zhejiang Feiyang Lianchuang Travel Co., Ltd., Ningbo Qihang Airplane Ticketing Co., Ltd. and Zhejiang Feiyang Commercial Management Co., Ltd. (the “**PRC Operating Entities**”) was prohibited or restricted from foreign ownership. The wholly-owned subsidiary of the Company, Ningbo Feiyang Commercial Management Co., Ltd. (“**WFOE**”), has entered into a series of structured contracts (the “**Structured Contracts**”) with the PRC Operating Entities and their respective equity holders (hereafter the equity holders of the PRC Operating Entities referred to the “**Registered Shareholders**”). The Structured Contracts enable the WFOE to exercise effective control over the PRC Operating Entities and obtain substantially all economic benefits of the PRC Operating Entities. Accordingly, the Company regards the PRC Operating Entities as indirect subsidiaries and the PRC Operating Entities are consolidated into the financial statements of the Company. The Group does not have any equity interests in the PRC Operating Entities.

A description of the business activities of the PRC Operating Entities and their significance to the Group are set out in note 1 to the financial statements.

The Board considers that the PRC Operating Entities are significant to the Group as they hold a majority of assets that are important to the operation of our business, including operating permits and licences.

Summary of the major terms of the Contractual Arrangements

With respect to each of the Structured Contracts, the WFOE, Feiyang International and the Relevant Shareholders (namely Mr. He Binfeng, Ms. Qian Jie, Mr. Wu Bin, Mr. Chen Xiadong, Mr. Li Da, Ms. Qiu Zheng and Feiyang Management) and their spouse (where applicable) have entered into a set of the following underlying agreements:

- i. Exclusive Consulting Service Agreement (獨家諮詢服務協議);
- ii. Intellectual Property Licence Agreement (知識產權授權許可協議);
- iii. Exclusive Option Agreement (獨家購買權協議);
- iv. Share Pledge Agreement (股份質押協議);
- v. Shareholders’ Rights Entrustment Agreement (股東權利委託協議); and
- vi. Spousal Undertakings (配偶同意函).

REPORT OF THE DIRECTORS

Exclusive Consulting Service Agreement

The WFOE entered into the exclusive consulting service agreement with Feiyang International on 18 January 2019, pursuant to which Feiyang International agreed to engage the WFOE as its exclusive provider of technical and management consulting and other related services requested by the PRC Operating Entities from time to time to the extent permitted under PRC laws in exchange for service fees (the “**Exclusive Consulting Service Agreement**”).

The consultation and services provided by the WFOE include but not limited to:

- assisting with contemplating the management model and business plan;
- assisting with the enterprise standardisation, construction of the management system, and integration of the business modules;
- assisting with the establishment of a perfected business process management;
- providing management and consulting services on daily operations, finances, investments, assets, claims and debts, human resources, internal information, and other conventional management and advisory services in the industry;
- providing views and advice on the assets and business operations;
- providing views and advice on the negotiation, execution, and performance of material contracts;
- providing views and advice on the merger and acquisition or other expansion plans;
- assisting with developing marketing plans;
- conducting specialised research and investigations on the industry and the market;
- implementing employee training programs to improve professional skills; and
- other services reasonably requested by the PRC Operating Entities, in conformity with industry practices.

The service fee under the Exclusive Consulting Service Agreement shall consist of 100% of the profits before tax of Feiyang International, after deducting relevant costs and reasonable expenses, and the WFOE has the right to adjust the service fee at any time based on the services provided to Feiyang International.

Feiyang International shall entrust the above services to the WFOE on an exclusive basis, which means that not only does Feiyang International agree to accept the above services provided by the WFOE, it also agrees that, during the term of the Exclusive Consulting Service Agreement, without prior written consent of the WFOE, Feiyang International shall not and shall procure its subsidiaries and joint ventures not to accept professional consultancy and services provided by any third party, that are identical or similar to the services contemplated in the Exclusive Consulting Service Agreement so as to wholly or partially invalidate the rights and obligations of the WFOE to provide services to Feiyang International in accordance with the terms of the Exclusive Consulting Service Agreement.

REPORT OF THE DIRECTORS

The Exclusive Consulting Service Agreement shall be effective upon the completion of executing all of the Contractual Arrangements, and shall remain irrevocable ever after, until both parties terminate the Exclusive Consulting Service Agreement in writing or the shares or all the assets of Feiyang International have been legally and effectively transferred to the WFOE and/or its designees. Notwithstanding the above, the WFOE has the right to terminate the Exclusive Consulting Service Agreement at any time by issuing a 30 days' notice in writing, and the WFOE shall not be liable for any defaults for unilaterally terminating the Exclusive Consulting Service Agreement.

Intellectual Property Licence Agreement

The WFOE and Feiyang International entered into an exclusive intellectual property rights licensing agreement on 18 January 2019 (the "**Intellectual Property Licence Agreement**"), pursuant to which, in exchange for a royalty fee, the WFOE agreed to licence to Feiyang International certain intellectual property rights owned by the WFOE from time to time (the "**Relevant IP Rights**").

Feiyang International shall obtain the licence of the Relevant IP Rights from the WFOE on an exclusive basis, which means that not only does Feiyang International agree to licence the Relevant IP Rights from the WFOE, it also agrees that, during the term of the Intellectual Property Licence Agreement, without prior written consent of the WFOE, Feiyang International shall not and shall procure its subsidiaries and joint ventures not to obtain the licence of the Relevant IP Rights from any third party.

The Intellectual Property Licence Agreement shall be effective upon the completion of execution by the legal representatives or authorised representatives of the WFOE and Feiyang International, and shall remain effective for a term of ten years, and shall be automatically renewed for successive terms of five years unless Feiyang International terminate the Intellectual Property Licence Agreement by issuing a 30 days' notice in writing prior to the expiration of the term of the Intellectual Property Licence Agreement.

Exclusive Option Agreement

The WFOE, Feiyang International and the Relevant Shareholders entered into an exclusive option agreement on 18 January 2019 (the "**Exclusive Option Agreement**"), pursuant to which the WFOE (or its designees) was granted an irrevocable and exclusive right (the "**Exclusive Option Rights**") to purchase from the Relevant Shareholders all or any part of their equity interest in and/or assets of Feiyang International and its subsidiary(ies) for a nominal price, unless the relevant government authorities or the PRC laws and regulations request that another amount be used as the purchase price, in which case the purchase price shall be the lowest amount under such request. Such agreement became effective upon its execution and the execution of other Structured Contracts (other than the Spousal Undertakings) on 18 January 2019 and will remain effective during the continuance of the PRC Operating Entities until (i) terminated by written notice from the parties to the agreement (pursuant to the Exclusive Option Rights, the WFOE is granted the right to unilaterally terminate the Exclusive Option Agreement by giving at least 30 days notice to all other parties to this agreement, but the Relevant Shareholders are not entitled to unilaterally terminate the Exclusive Option Agreement at their discretion), (ii) the shareholders of Feiyang International and its subsidiaries legally transferred all of the shares of Feiyang International and the equity of its subsidiaries to the WFOE (or its designee(s)), or (iii) all of the assets of Feiyang International are legally transferred to the WFOE (or its designee(s)). According to the Exclusive Option Agreement, the Relevant Shareholders shall return any amount of the purchase price they have received to the WFOE or its designee(s) without violating relevant PRC laws and regulations. Upon receiving the notice issued by the WFOE (or its designees) to exercise their Exclusive Option Rights (the "**Notice**"), the Relevant Shareholders and Feiyang International will take all necessary actions to engage in and complete the approval, filing, or registration procedures with regulatory authorities without any delay, so that the relevant equity interest in and/or assets of Feiyang International as set out in the Notice, without any security interest attached to them, can be effectively registered under the name of the WFOE (or its designees).

REPORT OF THE DIRECTORS

Feiyang International and the Relevant Shareholders, severally and jointly, irrevocably covenant and warrant that they shall, among other things:

- not supplement, change, or amend the business scope and the articles of association of Feiyang International, or increase or reduce the registered capital of Feiyang International, or otherwise change the structure of the registered capital of Feiyang International, without prior written consent of the WFOE;
- maintain the standing of Feiyang International, operate its business and handle its affairs prudently and effectively, in accordance with good financial and commercial standards and practice, and shall not cause the liquidation, close of business, termination or dissolution of Feiyang International;
- not sell, transfer, gift, mortgage, or otherwise dispose of, create any encumbrance over or procure the management of Feiyang International to sell, transfer, gift, mortgage, or otherwise dispose of, create any encumbrance over the legitimate interest or beneficial interest of any assets, business, or incomes of Feiyang International and its subsidiaries at any time since the date of this Exclusive Option Agreement, without prior written consent of the WFOE;
- not terminate or procure the management of Feiyang International to terminate any of the agreements under the Contractual Arrangements executed by Feiyang International, or sign any agreements in conflict with the existing Contractual Arrangements;
- not incur or allow the incurrence of any debts to Feiyang International, unless (i) the debts are incurred in normal or ordinary course of business; or (ii) the debts have been disclosed to and consented in writing by the WFOE;
- operate Feiyang International in the ordinary course of business so as to maintain asset value of Feiyang International, and shall not carry out any action or omission which may affect the operational situation or asset value of Feiyang International;
- not cause Feiyang International to enter into any material contracts with the amount exceeding RMB1 million without prior written consent of the WFOE, except for contracts entered into in the normal course of business);
- not provide any loan or guarantee to any person without prior written consent of the WFOE;
- at the request of the WFOE, provide, among others, all information on the labour, operation, compliance and financial conditions of Feiyang International;
- not procure or consent to the spin-off of Feiyang International, or the merger, the association with or the acquisition of/by any entity, or the investment into any entity by Feiyang International without the written consent of the WFOE;
- if requested by the WFOE, purchase and maintain insurance over the assets and business of Feiyang International from an insurance carrier acceptable to the WFOE, at an amount and type of coverage typical for companies carrying on similar businesses;
- immediately notify the WFOE of the occurrence or possible occurrence of any litigation, arbitration or administrative proceedings relating to the assets, business and revenue of Feiyang International, and take all necessary measures in accordance with the reasonable request of the WFOE;

REPORT OF THE DIRECTORS

- for the purpose of safeguarding Feiyang International of its rights over its assets, execute all necessary or appropriate documents, take all necessary or appropriate actions and file all necessary or appropriate claims or raise necessary and appropriate defenses against all claims;
- acknowledge, in the event that Feiyang International or any of its shareholders fails to fulfill his/her/its tax obligations under applicable laws, leading to an impediment on the exercise of the Exclusive Option Rights by the WFOE, the WFOE has the right to request Feiyang International or the Relevant Shareholders to fulfill such tax obligation, or request Feiyang International or the Relevant Shareholders to pay such amount of tax to the WFOE such that the WFOE shall pay such amount on behalf of Feiyang International or its shareholders;
- not, without prior written consent of the WFOE, in any manner distribute bonuses, dividends, distributable interests, and/or any other income arising from any assets or shares held by the Relevant Shareholders.

The Relevant Shareholders, severally and jointly, irrevocably covenant and warrant that, without prior written consent of the WFOE, they shall, among other things:

- not transfer, pledge, or otherwise dispose of, or allow any encumbrance to be placed on the legitimate or beneficial interest of any equity interest of Feiyang International held by them, except the pledge set on the equity interest of Feiyang International in accordance with the Share Pledge Agreement;
- not vote in favour of or support or execute any shareholder resolutions on meetings of shareholders to approve to sell, transfer, pledge, or otherwise dispose of the legitimate or beneficial interest of any share or asset, or to allow any encumbrance (except the encumbrance made to the WFOE or its designees) to be placed on it;
- without the prior written consent of the WFOE, not vote or support or execute any resolutions at the general meeting of Feiyang International to approve for the merger, association or acquisition with any individual, or the investment to any individual, or the separation or alteration in the registered capital or formation of Feiyang International;
- when the WFOE exercises the exclusive right to purchase, instruct Feiyang International to convene a general meeting in a timely manner to vote for the transfer of the shares or the assets as stipulated in accordance with the Exclusive Option Agreement at the meeting;
- immediately notify the WFOE of any litigation, arbitration or administrative proceedings relating to the shares or assets of Feiyang International owned by them that have occurred or are likely to occur;
- not appoint or replace any director, supervisor, or management of Feiyang International that ought to be appointed by the Relevant Shareholders, and shall immediately appoint or employ personnel designated by the WFOE as directors and senior management of Feiyang International upon the request of the WFOE;
- procure Feiyang International not to distribute dividends, bonus, distributable profits and/or any assets and other proceeds from the shares held by the shareholders of Feiyang International in any form without the prior written consent of the WFOE; and
- strictly abide by the provisions of this Exclusive Option Agreement and other agreements jointly or separately signed by the parties and earnestly perform the obligations under the agreements, and shall not carry out any actions and inactions that may affect the validity and enforceability of such agreements.

REPORT OF THE DIRECTORS

Should the event of default (as provided in the Exclusive Option Agreement) by Feiyang International or the Relevant Shareholders occur, unless rectified or remedial measures have been taken within a reasonable period or within 10 days after the WFOE requests ratification in writing, the WFOE shall have the right to terminate the Exclusive Option Agreement and require Feiyang International or the Relevant Shareholders to compensate for the damages.

Share Pledge Agreement

The WFOE and the Relevant Shareholders entered into a share pledge agreement on 18 January 2019 (the “**Share Pledge Agreement**”), pursuant to which the Relevant Shareholders agreed to pledge all of their respective equity interest in Feiyang International to guarantee the performance of the obligation of, and the representations, undertakings, and warrants provided by, Feiyang International and the Relevant Shareholders under the Contractual Arrangements.

The pledge under the Share Pledge Agreement shall take effect upon the completion of registration with the relevant administration for industry and commerce and shall remain valid until the Share Pledge Agreement and other agreements under the Contractual Arrangements have been cancelled or terminated.

Should the event of default (as provided in the Share Pledge Agreement) by Feiyang International or the Relevant Shareholders occur, unless rectified or remedial measures have been taken within a reasonable period or within 10 days after the WFOE requests ratification in writing, the WFOE shall have the right to terminate the Share Pledge Agreement and require Feiyang International or the Relevant Shareholders to compensate for the damages.

We have completed registrations of the share pledge of Feiyang International as contemplated under the Share Pledge Agreement on 23 January 2019 with Ningbo Municipal Administration of Market Supervision (寧波市市場監督管理局).

Shareholders’ Rights Entrustment Agreement

The WFOE and the Relevant Shareholders entered into the Shareholders’ Rights Entrustment Agreement on 18 January 2019 pursuant to which the Relevant Shareholders irrevocably authorised the WFOE or its designated personnel to exercise their shareholders’ rights in Feiyang International, including but not limited to, attending shareholders’ meetings and exercising voting rights. The WFOE is authorised to exercise any of the shareholders’ rights without consulting or obtaining the consent of the Relevant Shareholders. Furthermore, the WFOE is entitled to authorise other individuals to exercise the shareholder’s rights within the scope authorised by the Relevant Shareholders.

The Shareholders’ Rights Entrustment Agreement became effective upon execution and shall remain effective until (a) acquisition by the WFOE of the entire equity interests or assets of Feiyang International; (b) terminated unilaterally by the WFOE in writing; or (c) the Relevant Shareholders transferred all their respective shares in Feiyang International to the WFOE.

REPORT OF THE DIRECTORS

Pursuant to the Shareholders' Rights Entrustment Agreement, the WFOE, Feiyang International and the Relevant Shareholders entered into a power of attorney on 18 January 2019 (the "**Power of Attorney**"), pursuant to which the Relevant Shareholders unconditionally and irrevocably appoint the WFOE or its designees as their attorney-in-fact to exercise, pursuant to the instructions of the WFOE, all the rights that they have as the shareholders of Feiyang International as set out in the then-valid articles of association of Feiyang International, including but not limited to:

- proposing to convene and attend the general meeting of shareholders, executing meeting minutes and resolutions, exercising voting rights on all matters that need to be discussed and resolved in the general meeting of shareholders (including but not limited to the appointment, election, or removal of the directors, supervisors, and senior management of Feiyang International) of Feiyang International, and executing any documents that need to be executed by the shareholders of the Feiyang International and submitting any document to the company registration authority for filing purposes;
- resolving on the disposals of the assets of Feiyang International;
- resolving on the dissolution and liquidation of Feiyang International, and forming a liquidation group to legally exercise the rights of powers of the liquidation group during the liquidation period in accordance with the law, including but not limited to resolving on disposals of the assets of Feiyang International;
- deciding to transfer or otherwise dispose of the shares Feiyang International held by the Relevant Shareholders; and
- other shareholders' rights stipulated by applicable PRC laws and regulations (including the amendments, modifications, supplements, and re-enactments, whether entering into force before or after the execution of the Power of Attorney) and the articles of association (as amended) of Feiyang International.

The Relevant Shareholders undertake that they will not revoke the appointment of the WFOE and its designees as their attorney-in-fact, and there are no potential conflicts of interests in relation to such appointment.

The Power of Attorney shall be effective upon execution, and shall remain effective within the effective date of the Shareholders' Rights Entrustment Agreement.

Spousal Undertakings

The spouse of each of the Relevant Shareholders other than Ms. Qiu, where applicable, and the spouse of Ms. Qiu has signed an undertaking (collectively, the "**Spousal Undertakings**") on 18 January 2019 and 21 January 2019, respectively, to the effect that, among others, (i) the shares of Feiyang International held and to be held by each of the Relevant Shareholders do not fall within the scope of communal properties, and (ii) he or she waives any rights or interests that may be granted to him or her under the applicable laws of any jurisdictions, and he or she undertakes not to claim such rights or interests.

The spouse of each of the Relevant Shareholders, where applicable, has also consented to the entering into the Exclusive Option Agreement, the Exclusive Consulting Service Agreement, the Intellectual Property Licence Agreement, the Share Pledge Agreement and the Shareholders' Rights Entrustment Agreement.

Further details of the Structured Contracts are disclosed in the section headed "Contractual Arrangements" in the Prospectus and the Company's website. During the Year, there was no material change in the Contractual Arrangements and/or the circumstances under which they were adopted, and none of the Contractual Arrangements has been unwound as none of the restrictions that led to the adoption of Contractual Arrangements has been removed.

REPORT OF THE DIRECTORS

Revenue and Assets in relation to the Contractual Arrangement

During the Year, revenue attributable to the PRC Operating Entities (before any inter-company eliminations) was approximately RMB122.4 million. The total asset and net asset attributable to the PRC Operating Entities (before any inter-company eliminations) as at 31 December 2021 was approximately RMB605.8 million and RMB54.0 million, respectively.

The risks associated with the Contractual Arrangements and actions taken by the Company to mitigate the risks

There are certain risks that are associated with the Contractual Arrangements, including:

- substantial uncertainties exist with respect to the interpretation and implementation of the Foreign Investment Law in the PRC which may impact the viability of the current corporate structure, corporate governance and business operations;
- the PRC government may determine that the Contractual Arrangements are not in compliance with applicable PRC laws, rules, regulations or policies and may take actions against the Group's operation;
- the Contractual Arrangements may not be as effective in providing control over the PRC Operating Entities as equity ownership;
- the owners of the PRC Operating Entities may have conflicts of interest with the Group, which may materially and adversely affect the Group's business, financial condition and results of operations;
- the Group may have to incur additional costs and expend substantial resources to enforce the Contractual Arrangements, temporarily or permanently lose control over the primary operations or lose access to primary sources of revenue, if the PRC Operating Entities or their respective ultimate shareholders fail to perform their obligations under the Contractual Arrangements;
- certain terms of the Contractual Arrangements may not be enforceable under the PRC laws;
- the Contractual Arrangements may be considered by the PRC tax authorities as requiring transfer pricing adjustments;
- the Group may lose the ability to use and enjoy certain important assets, which could reduce the size of the Group's operations, impair the ability to generate revenue and materially affect the market price of the Shares, if any of the PRC Operating Entities becomes the subject of a bankruptcy or liquidation proceeding; and
- the Group's ability to acquire the entire equity interest and/or assets of the PRC Operating Entities is subject to restrictions.

Further details of the risks associated with the Contractual Arrangements are set out in the section headed "Risk factors — Risks relating to our Contractual Arrangements" in the Prospectus.

REPORT OF THE DIRECTORS

The Group has adopted measures to ensure the effective operation of our Group's businesses with the implementation of the Contractual Arrangements and the compliance with the Contractual Arrangements, including:

1. major issues arising from the implementation and compliance with the Contractual Arrangements or any regulatory enquiries from government authorities will be submitted to the Board, if necessary, for review and discussion on an occurrence basis;
2. the Board will review the overall performance of and compliance with the Contractual Arrangements at least once a year;
3. the Directors undertake to provide periodic updates in the annual reports regarding the latest development of the FIL; and
4. the Company will engage external legal advisors or other professional advisors, if necessary, to assist the Board to review the implementation of the Contractual Arrangements, review the legal compliance of WFOE and the PRC Operating Entities to deal with specific issues or matters arising from the Contractual Arrangements.

The independent non-executive Directors have reviewed the Contractual Arrangements set out above and have confirmed that (i) the transactions carried out during the Year have been entered into in accordance with the relevant provisions of the Contractual Arrangements and that the profit generated by the PRC Operating Entities has been substantially retained by the WFOE, (ii) no dividends or other distributions have been made by the PRC Operating Entities to the holders of its equity interests which are not otherwise subsequently assigned or transferred to us, and (iii) no new contracts have been entered into, renewed or reproduced between the Group and our PRC Operating Entities during the Year.

Pursuant to Rule 14A.55 of the Listing Rules, the Independent non-executive Directors have also reviewed the Contractual Arrangements set out above and have confirmed that the Contractual Arrangements were entered into (i) in the ordinary and usual course of business of the Group, (ii) on normal commercial terms, and (iii) in accordance with the respective agreement governing them on terms that are fair and reasonable and in the interests of the Company and its Shareholders as a whole.

Ernst & Young, the Company's external auditor, was engaged to report on the Group's continuing connected transactions in accordance with the Hong Kong Standard on Assurance Engagements 3000 (Revised) Assurance Engagements Other Than Audits or Reviews of Historical Financial Information and with reference to Practice Note 740 (Revised) Auditor's Letter on Continuing Connected Transactions under the Listing Rules issued by the Hong Kong Institute of Certified Public Accountants. Ernst & Young has issued their unqualified letter containing their findings and conclusions in respect of the transactions disclosed above by the Group in accordance with Rule 14A.56 of the Listing Rules. A copy of the auditor's letter has been provided by the Company to the Stock Exchange.

REVIEW BY AUDIT COMMITTEE

The annual results and the audited consolidated financial statements of the Group for the year ended 31 December 2021 have been reviewed by the Audit Committee. The Audit Committee is of the opinion that the consolidated financial statements of the Group for the year ended 31 December 2021 comply with applicable reporting standards, the Listing Rules, and that adequate disclosures have been made.

To the shareholders of Feiyang International Holdings Group Limited
(Incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Feiyang International Holdings Group Limited (the "Company") and its subsidiaries (the "Group") set out on pages 97 to 172, which comprise the consolidated statement of financial position as at 31 December 2021, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

Key audit matters *(continued)*

Key audit matter

How our audit addressed the key audit matter

Impairment assessment for trade and other receivables

As at 31 December 2021, trade receivable balance was RMB82.9 million and the provision for impairment was RMB69.8 million, which together represented 4.3% of the Group's total assets. As at 31 December 2021, deposits and other receivables balance included in "prepayments, deposits and other receivables" was RMB204.5 million and the provision for impairment was RMB93.9 million, which together represented 30.6% of the Group's total assets.

The impairment of trade and other receivables is assessed based on the expected credit loss model which requires significant judgements and estimates from management. In assessing the expected credit loss of the trade and other receivables, management considered various factors such as the ageing of the balances, existence of disputes, recent historical payment patterns, any other available information concerning the creditworthiness of counterparties and forward-looking information. The assessment is highly judgmental.

The Group's disclosures about the impairment of trade and other receivables are included in notes 2.4, 3, 18 and 19 to the financial statements.

We evaluated the expected credit loss provision methodology used by the Group. We also evaluated management's assessment on the estimates of counterparties' current financial positions and the forward-looking adjustments by reviewing the detailed analysis of the ageing of the receivables, testing on a sample basis payments received subsequent to year end and historical payment patterns, reviewing correspondence related to any disputes between the parties involved, reviewing the market information about the credit status of the counterparties, where available, and evaluating the analysis of influence from macroeconomics on the loss rates of the Group's counterparties.

INDEPENDENT AUDITOR'S REPORT

Key audit matters *(continued)*

Key audit matter

How our audit addressed the key audit matter

Impairment assessment for long-lived assets

As at 31 December 2021, the balance of property, plant and equipment amounted to RMB14.2 million, the balance of right-of-use assets amounted to RMB16.0 million and the balance of intangible asset amounted to RMB18,000. Due to the travel restrictions and increased economic uncertainty under the covid-19 pandemic, the Group was loss-making for the year ended 31 December 2021, which represented an indication of impairment of long-lived assets. For this reason, the Group performed an impairment test of the cash-generating unit ("CGU"). The impairment test was significant to our audit, since the estimation process was complex and subjective and based on assumptions. The assumptions included expectations for budgeted revenue, budgeted gross margins, the growth rate and overall market and economic conditions.

The Group's disclosures about impairment of assets are included in notes 2.4 and 3 to the financial statements, which explain the accounting policies and management's accounting estimates. The Group's disclosures about long-lived assets are included in notes 13, 15(a) and 16 to the financial statements.

We evaluated management's assessment of impairment indications and management's definition of CGU within the Group. We reviewed and tested management's future forecasted cash flows and key assumptions by comparing the forecasts with the historical performance of the respective CGU and the business development plan, and external forecasts and analysis on the industry, including their consideration of the impact of the covid-19 pandemic. We involved our valuation specialist to assist us in evaluating the key valuation parameters such as the discount rates and the valuation model used in the forecasted cash flows.

INDEPENDENT AUDITOR'S REPORT

OTHER INFORMATION INCLUDED IN THE ANNUAL REPORT

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Lai Chee Kong.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2021

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for financial assets at fair value through profit or loss and investment properties, which have been measured at fair value. These financial statements are presented in Renminbi ("RMB") and all values are rounded to the nearest thousand except when otherwise indicated.

Going concern assumption

As at 31 December 2021, the Group's net current liabilities amounted to approximately RMB68,482,000, which comprised current assets of RMB197,761,000 and current liabilities of RMB266,243,000. The liquidity of the Group is primarily dependent on its ability to maintain adequate cash inflows from operations and sufficient financing to meet its financial obligations as and when they fall due. In preparing the financial statements, the directors of the Company have considered the Group's sources of liquidity and believe that adequate funding is available to fulfil the Group's debt obligations and capital expenditure requirements.

As at 31 December 2021, the Group's total borrowings amounted to RMB203,722,000, of which RMB201,286,000 will be due within twelve months from 31 December 2021. The Group has not experienced any significant difficulties in renewing its short-term borrowings upon their maturities and there is no indication that the banks will not renew the existing borrowings if the Group applies for the renewal. As at the reporting date, the Group had unutilised credit facilities from banks of RMB54,000,000 to meet the debt obligations and capital expenditure requirements.

The directors of the Company have reviewed the Group's cash flow forecast prepared by management which covers a period of twelve months from the end of the reporting period. They are of the opinion that, taking into account the above-mentioned measures, the Group will have sufficient working capital to finance its operations and meet its financial obligations as and when they fall due in the foreseeable future.

Accordingly, the consolidated financial statements have been prepared on a basis that the Group will be able to continue as a going concern.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2021

2.1 BASIS OF PREPARATION *(continued)*

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries for the year ended 31 December 2021. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investments retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the following revised HKFRSs for the first time for the current year's financial statements.

Amendments to HKFRS 9, HKAS 39 and
HKFRS 7, HKFRS 4 and HKFRS 16
Amendment to HKFRS 16

Interest Rate Benchmark Reform Phase 2

Covid-19-Related Rent Concessions beyond 30 June 2021
(early adopted)

The nature and the impact of the revised HKFRSs are described below:

- (a) Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16 address issues not dealt with in the previous amendments which affect financial reporting when an existing interest rate benchmark is replaced with an alternative risk-free rate ("RFR"). The amendments provide a practical expedient to allow the effective interest rate to be updated without adjusting the carrying amount of financial assets and liabilities when accounting for changes in the basis for determining the contractual cash flows of financial assets and liabilities, if the change is a direct consequence of the interest rate benchmark reform and the new basis for determining the contractual cash flows is economically equivalent to the previous basis immediately preceding the change. In addition, the amendments permit changes required by the interest rate benchmark reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued. Any gains or losses that could arise on transition are dealt with through the normal requirements of HKFRS 9 to measure and recognise hedge ineffectiveness. The amendments also provide a temporary relief to entities from having to meet the separately identifiable requirement when an RFR is designated as a risk component. The relief allows an entity, upon designation of the hedge, to assume that the separately identifiable requirement is met, provided the entity reasonably expects the RFR risk component to become separately identifiable within the next 24 months. Furthermore, the amendments require an entity to disclose additional information to enable users of financial statements to understand the effect of interest rate benchmark reform on an entity's financial instruments and risk management strategy.

The amendments are not expected to have any significant impact on the Group's financial statements.

- (b) Amendment to HKFRS 16 issued in April 2021 extends the availability of the practical expedient for lessees to elect not to apply lease modification accounting for rent concessions arising as a direct consequence of the covid-19 pandemic by 12 months. Accordingly, the practical expedient applies to rent concessions for which any reduction in lease payments affects only payments originally due on or before 30 June 2022, provided the other conditions for applying the practical expedient are met. The amendment is effective retrospectively for annual periods beginning on or after 1 April 2021 with any cumulative effect of initially applying the amendment recognised as an adjustment to the opening balance of retained profits at the beginning of the current accounting period. Earlier application is permitted.

The Group has early adopted the amendment on 1 January 2021 and applied the practical expedient during the year ended 31 December 2021 to all rent concessions granted by the lessors that affected only payments originally due on or before 30 June 2022 as a direct consequence of the covid-19 pandemic. A reduction in the lease payments arising from the rent concessions of RMB66,000 has been accounted for as a variable lease payment by derecognising part of the lease liabilities and crediting to profit or loss for the year ended 31 December 2021. There was no impact on the opening balance of equity as at 1 January 2021.

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS

The Group has not applied the following new and revised HKFRSs, that have been issued but are not yet effective, in these financial statements.

Amendments to HKFRS 3	<i>Reference to the Conceptual Framework¹</i>
Amendments to HKFRS 10 and HKAS 28 (2011)	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture³</i>
HKFRS 17	<i>Insurance Contracts²</i>
Amendments to HKFRS 17	<i>Insurance Contracts^{2, 5}</i>
Amendment to HKFRS 17	<i>Initial Application of IFRS 17 and IFRS 9 Comparative Information²</i>
Amendments to HKAS 1	<i>Classification of Liabilities as Current or Non-current^{2, 4}</i>
Amendments to HKAS 1 and HKFRS Practice Statement 2	<i>Disclosure of Accounting Policies²</i>
Amendments to HKAS 8	<i>Definition of Accounting Estimates²</i>
Amendments to HKAS 12	<i>Deferred Tax related to Assets and Liabilities arising from a Single Transaction²</i>
Amendments to HKAS 16	<i>Property, Plant and Equipment: Proceeds before Intended Use¹</i>
Amendments to HKAS 37	<i>Onerous Contracts — Cost of Fulfilling a Contract¹</i>
Annual Improvements to HKFRSs 2018–2020	Amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41 ¹

¹ Effective for annual periods beginning on or after 1 January 2022

² Effective for annual periods beginning on or after 1 January 2023

³ No mandatory effective date yet determined but available for adoption

⁴ As a consequence of the amendments to HKAS 1, Hong Kong Interpretation 5 *Presentation of Financial Statements — Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause* was revised in October 2020 to align the corresponding wording with no change in conclusion

⁵ As a consequence of the amendments to HKFRS 17 issued in October 2020, HKFRS 4 was amended to extend the temporary exemption that permits insurers to apply HKAS 39 rather than HKFRS 9 for annual periods beginning before 1 January 2023

Further information about those HKFRSs that are expected to be applicable to the Group is described below.

Amendments to HKFRS 3 are intended to replace a reference to the previous *Framework for the Preparation and Presentation of Financial Statements* with a reference to the *Conceptual Framework for Financial Reporting* issued in June 2018 without significantly changing its requirements. The amendments also add to HKFRS 3 an exception to its recognition principle for an entity to refer to the Conceptual Framework to determine what constitutes an asset or a liability. The exception specifies that, for liabilities and contingent liabilities that would be within the scope of HKAS 37 or HK(IFRIC)-Int 21 if they were incurred separately rather than assumed in a business combination, an entity applying HKFRS 3 should refer to HKAS 37 or HK(IFRIC)-Int 21 respectively instead of the Conceptual Framework. Furthermore, the amendments clarify that contingent assets do not qualify for recognition at the acquisition date. The Group expects to adopt the amendments prospectively from 1 January 2022. Since the amendments apply prospectively to business combinations for which the acquisition date is on or after the date of first application, the Group will not be affected by these amendments on the date of transition.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2021

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS *(continued)*

Amendments to HKFRS 10 and HKAS 28 (2011) address an inconsistency between the requirements in HKFRS 10 and in HKAS 28 (2011) in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss when the sale or contribution of assets between an investor and its associate or joint venture constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to HKFRS 10 and HKAS 28 (2011) was removed by the HKICPA in January 2016 and a new mandatory effective date will be determined after the completion of a broader review of accounting for associates and joint ventures. However, the amendments are available for adoption now.

Amendments to HKAS 1 *Classification of Liabilities as Current or Non-current* clarify the requirements for classifying liabilities as current or non-current. The amendments specify that if an entity's right to defer settlement of a liability is subject to the entity complying with specified conditions, the entity has a right to defer settlement of the liability at the end of the reporting period if it complies with those conditions at that date. Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability. The amendments also clarify the situations that are considered a settlement of a liability. The amendments are effective for annual periods beginning on or after 1 January 2023 and shall be applied retrospectively. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKAS 1 *Disclosure of Accounting Policies* require entities to disclose their material accounting policy information rather than their significant accounting policies. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. Amendments to HKFRS Practice Statement 2 provide non-mandatory guidance on how to apply the concept of materiality to accounting policy disclosures. Amendments to HKAS 1 are effective for annual periods beginning on or after 1 January 2023 and earlier application is permitted. Since the guidance provided in the amendments to HKFRS Practice Statement 2 is non-mandatory, an effective date for these amendments is not necessary. The Group is currently assessing the impact of the amendments on the Group's accounting policy disclosures.

Amendments to HKAS 8 clarify the distinction between changes in accounting estimates and changes in accounting policies. Accounting estimates are defined as monetary amounts in financial statements that are subject to measurement uncertainty. The amendments also clarify how entities use measurement techniques and inputs to develop accounting estimates. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and apply to changes in accounting policies and changes in accounting estimates that occur on or after the start of that period. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2021

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS *(continued)*

Amendments to HKAS 12 narrow the scope of the initial recognition exception so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences, such as leases and decommissioning obligations. Therefore, entities are required to recognise a deferred tax asset and a deferred tax liability for temporary differences arising from these transactions. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and shall be applied to transactions related to leases and decommissioning obligations at the beginning of the earliest comparative period presented, with any cumulative effect recognised as an adjustment to the opening balance of retained profits or other component of equity as appropriate at that date. In addition, the amendments shall be applied prospectively to transactions other than leases and decommissioning obligations. Earlier application is permitted.

The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKAS 16 prohibit an entity from deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling any such items, and the cost of those items, in profit or loss. The amendments are effective for annual periods beginning on or after 1 January 2022 and shall be applied retrospectively only to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKAS 37 clarify that for the purpose of assessing whether a contract is onerous under HKAS 37, the cost of fulfilling the contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract include both the incremental costs of fulfilling that contract (e.g., direct labour and materials) and an allocation of other costs that relate directly to fulfilling that contract (e.g., an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract as well as contract management and supervision costs). General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract. The amendments are effective for annual periods beginning on or after 1 January 2022 and shall be applied to contracts for which an entity has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments. Earlier application is permitted. Any cumulative effect of initially applying the amendments shall be recognised as an adjustment to the opening equity at the date of initial application without restating the comparative information. The amendments are not expected to have any significant impact on the Group's financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2021

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS *(continued)*

Annual Improvements to HKFRSs 2018-2020 sets out amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41. Details of the amendments that are expected to be applicable to the Group are as follows:

- *HKFRS 9 Financial Instruments*: clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment. The amendment is effective for annual periods beginning on or after 1 January 2022. Earlier application is permitted. The amendment is not expected to have a significant impact on the Group's financial statements.
- *HKFRS 16 Leases*: removes the illustration of payments from the lessor relating to leasehold improvements in Illustrative Example 13 accompanying HKFRS 16. This removes potential confusion regarding the treatment of lease incentives when applying HKFRS 16.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investments in associates

An associate is an entity in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The Group's investments in associates are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses. The Group's share of the post-acquisition results and other comprehensive income of associates is included in the consolidated statement of profit or loss and consolidated other comprehensive income, respectively. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its associates are eliminated to the extent of the Group's investments in the associates, except where unrealised losses provide evidence of an impairment of the assets transferred. Goodwill arising from the acquisition of associates is included as part of the Group's investments in associates.

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method. In all other cases, upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2021

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Business combinations and goodwill

Business combinations not under common control are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

The Group determines that it has acquired a business when the acquired set of activities and assets includes an input and a substantive process that together significantly contribute to the ability to create outputs.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2021

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Business combinations and goodwill *(continued)*

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

Fair value measurement

The Group measures its investment properties and financial assets at fair value through profit or loss at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 — based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 — based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than investment properties, deferred tax assets and financial assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs. In testing a cash-generating unit for impairment, a portion of the carrying amount of a corporate asset (e.g., a headquarters building) is allocated to an individual cash-generating unit if it can be allocated on a reasonable and consistent basis or, otherwise, to the smallest group of cash-generating units.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to profit or loss in the period in which it arises.

Related parties

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

- (b) the party is an entity where any of the following conditions applies:
 - (i) the entity and the Group are members of the same group;
 - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
 - (iii) the entity and the Group are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The estimated useful lives of property, plant and equipment are as follows:

Computer and office equipment	3 to 5 years
Motor vehicles	4 to 8 years
Leasehold improvements	Over the shorter of the lease improvements' useful life and the lease term

The rates of residual values of certain property, plant and equipment are as follows:

Computer and office equipment	0 to 5%
Motor vehicles	5%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation methods are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress represents leasehold improvements under construction and certain office equipment under installation, which are stated at cost less any impairment losses, and are not depreciated. Cost comprises the direct costs of construction during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

Investment properties

Investment properties are interests in land and buildings which would otherwise meet the definition of an investment property held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the end of the reporting period.

Gains or losses arising from changes in the fair values of investment properties are included in profit or loss in the year in which they arise.

Any gains or losses on the retirement or disposal of an investment property are recognised in profit or loss in the year of the retirement or disposal.

For a transfer from investment properties to owner-occupied properties or inventories, the deemed cost of a property for subsequent accounting is its fair value at the date of change in use. If a property occupied by the Group as an owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under "Property, plant and equipment and depreciation" for owned property and/or accounts for such property in accordance with the policy stated under "Right-of-use assets" for property held as a right-of-use asset up to the date of change in use, and any difference at that date between the carrying amount and the fair value of the property is accounted for as a revaluation of property, plant and equipment. Changes in the values are dealt with as movements in the revaluation reserve. On disposal of the property, the relevant portion of the revaluation reserve realised in respect of previous valuations is transferred to retained profits as a movement in reserves. For a transfer from inventories to investment properties, any difference between the fair value of the property at that date and its previous carrying amount is recognised in profit or loss.

Transfers to or from investment property shall be made when, and only when, there is a change in use evidenced by:

- (a) commencement of owner-occupation, for a transfer from investment property to owner-occupied property;
- (b) commencement of development with a view to sale, for a transfer from investment property to inventories;
- (c) end of owner-occupation, for a transfer from owner-occupied property to investment property; or
- (d) commencement of an operating lease to another party, for a transfer from inventories to investment property.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Purchased software is stated at cost less any impairment losses and is amortised on the straight-line basis over its estimated useful life of 10 years.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) *Right-of-use assets*

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Office units	2 to 10 years
Motor vehicles	3 years

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Leases *(continued)*

Group as a lessee *(continued)*

(b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate the lease. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

The Group's lease liabilities are presented separately in the statement of financial position.

(c) Short-term leases

The Group applies the short-term lease recognition exemption to its short-term leases of office equipment (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option).

Lease payments on short-term leases are recognised as an expense on a straight-line basis over the lease term.

Group as a lessor

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease.

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income is accounted for on a straight-line basis over the lease terms and is included in other income in profit or loss due to its non-operating nature.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 in accordance with the policies set out for "Revenue recognition" above.

In order for a financial asset to be classified and measured at amortised cost, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Subsequent measurement

The Group's financial assets measured at amortised costs (debt instruments) are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2021

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred assets is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

The Group recognises an allowance for the expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2021

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Impairment of financial assets *(continued)*

General approach *(continued)*

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables which apply the simplified approach as detailed below.

- Stage 1 — Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 — Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 — Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

Simplified approach

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies a simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as loans and borrowings or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade payables, interest-bearing bank loans, other payables and accruals and lease liabilities.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2021

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Financial liabilities *(continued)*

Subsequent measurement

The subsequent measurement of loans and borrowings is as follows:

Financial liabilities measured at amortised cost (loans and borrowings)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in profit or loss.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short-term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- where the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2021

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Income tax *(continued)*

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, for which it is intended to compensate, are expensed.

Revenue recognition

Revenue from contracts with customers

The Group is mainly involved the business of providing travel-related products and services. Revenue from contracts with customers is recognised when control of the products and services is transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those products and services.

The disclosure of significant accounting judgement relating to revenue from contracts with customers is provided in note 3 to the financial statements.

Sale of travel-related products and services:

- (i) Revenue from the sale of package tours is recognised over time because the package is simultaneously received and consumed by the customer when the Group performs. The revenue is recognised based on the actual service provided to the end of the year as a proportion of the total services to be provided. This is determined based on the actual day spent at the destination relative to the total expected tour days.
- (ii) When the Group is acting as a principal in the sale of FIT products (such as air tickets and hotel rooms), the revenue from the sale of FIT products is recorded on the gross basis and is recognised at the point in time when the products are sold to the customers.
- (iii) When the Group is acting as an agent in the sale of FIT products, the margin income from the sale of FIT products is recognised at the point in time when the services have been rendered.
- (iv) Income from the sale of ancillary travel-related products and services (such as visa application processing, admission tickets to tourist attractions and arranging the purchase of travel insurance for customers), except for income from conferencing services, is recognised when the services are provided to customers.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Revenue recognition *(continued)*

Revenue from contracts with customers *(continued)*

- (v) Income from the provision of conferencing services is recognised over time because of continuous transfer of control to the customer. The revenue is recognised based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided.

Information system development services:

Revenue from information system development services is generally recognised at the point in time when control of the assets is transferred to the customers and customer acceptance is acquired.

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and the payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Dividend income is recognised when the shareholders' right to receive payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

Rental income is recognised on a time proportion basis over the lease terms.

Contract liabilities (included in "Advance from customers, other payables and accruals")

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related products or services to the customer).

Other employee benefits

Pension schemes

The employees of the Group's subsidiaries which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute a certain percentage of payroll costs to the central pension scheme. The contributions are charged to profit or loss as they become payable in accordance with the rules of the central pension scheme.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Dividends

Final dividends are recognised as a liability when they are approved by the shareholders in a general meeting.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

Foreign currencies

The financial statements are presented in RMB because the Group's principal operations are carried out in Mainland China. The functional currency of the Company and certain subsidiaries incorporated outside Mainland China is HKD and the functional currency of the subsidiaries established in Mainland China is RMB, which is the currency of the primary economic environment in which those entities operate. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

As at the end of the reporting period, the assets and liabilities of these entities are translated into Renminbi at the exchange rates prevailing at the end of the reporting period and their profit or loss are translated into Renminbi at the exchange rates that approximate to those prevailing at the dates of the transactions.

The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in profit or loss.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the financial statements requires management to make significant judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

Structured Contracts

The PRC Operating Entities are engaged in the outbound travel business and air ticketing business. Under the PRC laws and regulations, foreign investors are prohibited or restricted to invest in such business.

The Group exercises control over the PRC Operating Entities and enjoys substantially all economic benefits of the PRC Operating Entities through the Structured Contracts.

The Group does not have any equity interests in the PRC Operating Entities. However, as a result of the Structured Contracts, the Company has power over the PRC Operating Entities, has rights to variable returns from its involvement with the PRC Operating Entities and has the ability to affect those returns through its power over the PRC Operating Entities and is therefore considered to have control over them. Consequently, the Company regards the PRC Operating Entities as indirect subsidiaries. The Company has consolidated the financial position and results of the PRC Operating Entities in the financial statements during the reporting period.

Principal versus agent

Determining whether revenue of the Group should be reported gross or net is based on a continuing assessment of various factors. When determining whether the Group is acting as the principal or agent in offering goods or services to the customer, the Group needs to first identify who controls the specified goods or services before they are transferred to the customer. The Group is a principal that obtains control of any of the following: (i) a good or another asset from the other party that the Group then transfers to the customer; (ii) a right to a service to be performed by the other party, which gives the Group the ability to direct that party to provide the service to the customer on the Group's behalf; (iii) a good or service from the other party that the Group then combines with other goods or services in providing the specified good or service to the customer. If control is unclear, when the Group is primarily obligated in a transaction, is subject to inventory risk, has latitude in establishing prices and selecting suppliers, or has several but not all of these indicators, the Group records revenues on a gross basis. Otherwise, the Group records the net amount earned as commissions from products sold or services provided.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES *(continued)*

Judgements *(continued)*

Principal versus agent *(continued)*

The Group's management performs the assessment based on the above-mentioned factors and reaches the conclusion that the Group acts as a principal in the provision of package tour services, conferencing services and sale of FIT products since the Group controls the services and subject to inventory risk before they are transferred to the customers. The Group acts as an agent in the margin income from the sale of FIT products since the Group does not obtain control over the services performed by the airline companies, hotels, tourist attractions and the relevant government authorities for visa application processing services. Accordingly, the Group recognises revenue from the provision of package tour services, conferencing services and the sale of FIT products on a gross basis and recognises the margin income from the sale of FIT products and ancillary travel-related products and services except for conferencing services on a net basis.

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of each reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period, are described below.

Impairment of non-financial assets

The Group assesses whether there are any indicators of impairment for all non-financial assets (including the right-of-use assets) at the end of each reporting period. Other non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit based on key assumptions such as the budgeted revenue, budgeted gross margins, the growth rate and overall market and economic conditions, and choose a suitable discount rate in order to calculate the present value of those cash flows. The carrying amounts of property, plant and equipment, right-of-use assets and intangible asset at the end of the reporting period are disclosed in notes 13, 15(a) and 16, respectively, to the financial statements.

Estimation of fair value of investment properties

Investment properties carried at fair value were revalued at the end of each reporting period based on the appraised market value provided by independent professional valuers. Such valuations were based on certain assumptions, which are subject to uncertainty and might materially differ from the actual results. In making the estimation, the Group considers information from current prices in an active market for similar properties and uses assumptions that are mainly based on market conditions existing at the end of each reporting period.

The principal assumptions for the Group's estimation of the fair value include those related to estimated rental values with reference to the current market rents for similar properties in the same location and condition and appropriate capitalisation rates. The carrying amount of investment properties at 31 December 2021 was RMB6,255,000 (2020: RMB8,485,000). Further details, including the key assumptions used for fair value measurement and a sensitivity analysis, are given in note 14 to the financial statements.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES *(continued)*

Estimation uncertainty *(continued)*

Provision for expected credit losses on trade and other receivables

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groups of various customer segments that have similar loss patterns.

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information such as purchasing managers' index. For instance, if forecast economic conditions are expected to deteriorate over the next year which can lead to an increased number of defaults, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of a customer's actual default in the future. The provision for impairment of trade receivables at 31 December 2021 was RMB69,817,000 (2020: RMB53,143,000), details of which are set out in note 18 to the financial statements.

Provision for impairment on other receivables is measured as either 12-month expected credit losses or lifetime expected credit losses, depending on whether there has been a significant increase in credit risk since initial recognition. If a significant increase in credit risk of a receivable has occurred since initial recognition, then impairment is measured as lifetime expected credit losses. In assessing the expected credit loss of deposits and other receivables, management considers various factors such as the ageing of the balances, existence of disputes, recent historical payment patterns, any other available information concerning the creditworthiness of counterparties and forward-looking information. Management uses this information to determine whether a provision for impairment is required either for a specific counterparty or for certain counterparties' balances that have similar loss patterns overall. The provision for impairment of other receivables at 31 December 2021 was RMB93,941,000 (2020: RMB22,223,000), details of which are set out in note 19 to the financial statements.

Leases — Estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in a lease, and therefore, it uses an incremental borrowing rate ("IBR") to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group "would have to pay", which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when it needs to be adjusted to reflect the terms and conditions of the lease (for example, when leases are not in the subsidiary's functional currency). The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the subsidiary's stand-alone credit rating).

Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The gross deferred tax assets relating to deductible temporary differences as at 31 December 2021 were RMB12,537,000 (2020: RMB13,935,000). Further details are contained in note 25 to the consolidated financial statements.

4. OPERATING SEGMENT INFORMATION

The Group's chief operating decision makers are the executive directors of the Company. The information reported to the Company's executive directors, for the purpose of resource allocation and assessment of performance, does not contain discrete operating segment financial information and the executive directors review the financial results of the Group as a whole.

Geographical information

All external revenue of the Group during the years ended 31 December 2021 and 2020 was mainly attributable to customers established in the PRC, the place of domicile of the Group's operating entities.

The Group's non-current assets are all located in Mainland China.

Information about a major customer

No revenue from the Group's sales to a single customer amounted to 10% or more of the Group's revenue during the year ended 31 December 2021. Revenue from a major customer which accounted for 10% or more of the Group's revenue during the year ended 31 December 2020 is set out below:

10. INCOME TAX

The Group is subject to income tax on an entity basis on profits arising in or derived from the jurisdictions in which the members of the Group are domiciled and operate.

Pursuant to the rules and regulations of the Cayman Islands and the British Virgin Islands, the Group is not subject to any income tax in the Cayman Islands and British Virgin Islands.

Pursuant to the relevant tax law of the Hong Kong Special Administrative Region, Hong Kong profits tax has been provided at the rate of 16.5% (2020: 16.5%) on the estimated assessable profits arising in Hong Kong during the year. No provision for income tax has been made as the Group did not generate any assessable profits in Hong Kong during the year (2020: Nil).

During the year, except for one subsidiary of the Group which was entitled to a preferential income tax rate of 20% (2020: 20%) for small and micro enterprises with the first RMB1.0 million of annual taxable income eligible for a 75% tax reduction and the income between RMB1.0 million and RMB3.0 million eligible for a 50% tax reduction, the provision for Mainland China current income tax is based on the statutory rate of 25% (2020: 25%) of the assessable profits of the subsidiaries of Mainland China as determined in accordance with the Corporate Income Tax Law.

The Group's investment properties consist of office units located in Mainland China held to earn rentals.

The Group's investment properties were pledged to secure general banking facilities granted to the Group (note 24).

As at 31 December 2021 and 2020, the Group's investment properties were revalued based on valuations performed by Ningbo Gongping Real Estate Land Valuation Advisory Limited (寧波公評資產評估有限公司), an independent professionally qualified valuer.

Fair value hierarchy

The recurring fair value measurement hierarchy of the Group's investment properties is under Level 3 as the valuation requires significant unobservable inputs.

During the year, there were no transfers of fair value measurements between Level 1 and Level 2 and no transfers into or out of Level 3 (2020: Nil).

Set out below is a summary of the key inputs to the "Income method" valuation technique of investment properties:

As at 31 December 2021:

Significant unobservable input	Rates of unobservable inputs	Sensitivity of fair value to the input
Estimated rental value	RMB75.0 per square metre per month	15% increase/27% decrease in rental value would result in increase/decrease in fair value by RMB764,000
Discount rate	4.40%-4.90%	28% increase/20% decrease in discount rate would result in decrease/increase in fair value by RMB764,000

As at 31 December 2020:

Significant unobservable input	Rate of unobservable inputs	Sensitivity of fair value to the input
Estimated rental value	RMB93.0 per square metre per month	8% increase/decrease in rental value would result in increase/decrease in fair value by RMB717,000
Discount rate	4.90%	17% increase/15% decrease in discount rate would result in decrease/increase in fair value by RMB717,000

Estimated market rents are estimated based on the independent valuer's view of recent renting transactions within the subject properties and other comparable properties. A significant increase (decrease) in the estimated rental value in isolation would result in a significant increase (decrease) in the fair value of the investment properties. A significant increase (decrease) in the discount rate in isolation would result in a significant decrease (increase) in the fair value of the investment properties. Generally, a change in the assumption made for the estimated rental value is accompanied by a directionally similar change in the term yield.

15. LEASES

The Group as a lessee

The Group has lease contracts for various items of office units and a motor vehicle used in its operations. Leases of office units generally have lease terms between 2 and 10 years and the motor vehicle has a lease term for 3 years. Other office units generally have lease terms of 12 months or less. Generally, the Group is restricted from assigning and subleasing the leased assets outside the Group.

Zhejiang Ninglv Feiyang Cultural Tourism Development Co., Ltd. 浙江甯旅飛揚文旅發展有限公司	Ordinary shares	PRC/Mainland China	51%	Tourism development

The Group's shareholdings in the associates all comprise equity shares held through a wholly-owned subsidiary of the Company.

Ningbo Yinjiang Feiyang Cultural Tourism Development Co., Ltd., which is considered a material associate of the Group, is a strategic partner of the Group engaged in the development of tourist attractions and is accounted for using the equity method because the Group has significant influence over the entity by way of representation on the board of directors and participation in the policy-making process, despite the fact that the Group's direct equity interest in the entity was lower than 20% for the year ended 31 December 2021.

The following table illustrates the summarised financial information in respect of Ningbo Yinjiang Feiyang Cultural Tourism Development Co., Ltd. adjusted for any differences in accounting policies and reconciled to the carrying amount in the consolidated financial statements:

Trade receivables	82,864	84,098
Less: Impairment	(69,817)	(53,143)
	13,047	30,955

The credit terms granted by the Group are generally up to two months, extending up to one year for certain customers. The Group seeks to maintain strict control over its outstanding receivables and overdue balances are reviewed regularly by senior management. The Group does not hold any collateral or other credit enhancement over its trade receivable balances. Trade receivables are non-interest-bearing.

An ageing analysis of the trade receivables as at the end of the year, based on the transaction date, is as follows:

	2021 RMB'000	2020 RMB'000
1 to 60 days	6,312	8,675

18. TRADE RECEIVABLES *(continued)*

The Group has applied the simplified approach to provide for expected credit losses, which permits the use of the lifetime expected loss provision for all trade receivables. The Group overall considers the credit risk characteristics and the days past due of each type of trade receivables to measure the expected credit losses. Except for these trade receivables, the Group considers the historical loss rate and adjusts for forward-looking macroeconomic data in calculating the expected credit loss rate. The expected losses were determined according to the provision matrix as follows:

	As at 31 December 2021		
	Amount RMB'000	Expected loss rate	Expected credit losses RMB'000
Other trade receivables aged:			
Less than 1 year	14,866	25.26	3,755
Between 1 and 2 years	22,779	91.50	20,843
Over 2 years	45,219	100.00	45,219
	82,864		69,817
	As at 31 December 2020		
	Amount RMB'000	Expected loss rate	Expected credit losses RMB'000
Other trade receivables aged:

Over 2 years	–	100.00%	–
	84,098		53,143

As at 31 December 2021, RMB800,000 (2020: Nil) of the Group's trade receivables was pledged to secure bank loans granted to the Group (note 24).

	2021 RMB'000	2020 RMB'000
<i>Non-current:</i>		
Rental deposits	500	911
<i>Current:</i>		
Prepayments	11,910	148,778

	216,237	241,930
Impairment allowance	(93,941)	(22,223)
	122,296	219,707
	122,796	220,618

Provision for impairment on other receivables is measured as either 12-month expected credit losses or lifetime expected credit losses, depending on whether there has been a significant increase in credit risk since initial recognition. If a significant increase in credit risk of a receivable has occurred since initial recognition, then impairment is measured as lifetime expected credit losses. In assessing the expected credit loss of deposits and other receivables, management considers various factors such as the ageing of the balances, existence of disputes, recent historical payment patterns, any other available information concerning the creditworthiness of counterparties and forward-looking information. Management uses this information to determine whether a provision for impairment is required either for a specific counterparty or for certain counterparties' balances that have similar loss patterns overall.

Other receivables are unsecured and non-interest-bearing. For rental deposits and deposits to air ticket suppliers included in "deposits and other receivables", the balances are repayable according to the terms of the deposit contracts. Except for the rental deposits and deposits to air ticket suppliers, the other receivables are repayable on demand. As at 31 December 2021, the loss allowance was assessed to be RMB93,941,000 (2020: RMB22,223,000).

21. CASH AND CASH EQUIVALENTS AND PLEDGED DEPOSITS *(continued)*

The RMB is not freely convertible into other currencies. However, under Mainland China's Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business. The remittance of funds out of Mainland China is subject to exchange restrictions imposed by the PRC government.

Cash at banks earns interest at floating rates based on daily bank deposit rates. Time deposits are made for varying periods of between one day and thirty-six months, and earn interest at the respective time deposit rates. The bank balances and pledged time deposits are deposited with creditworthy banks with no recent history of default.

The carrying amounts of the cash and cash equivalents approximate to their fair values.

22. TRADE PAYABLES

An ageing analysis of the trade payables as at the end of the year, based on the invoice date, is as follows:

25. DEFERRED TAX *(continued)*

Deferred tax liabilities *(continued)*

Deferred tax assets have not been recognised in respect of the following items:

	2021 RMB'000	2020 RMB'000
Tax losses	24,635	21,837
Deductible temporary differences	93,628	42,526
	118,263	64,363

The Group has tax losses arising in Mainland China of RMB23,446,000 (2020: RMB19,117,000) that will expire in one to five years for offsetting against future taxable profits.

The Group has tax losses arising in Hong Kong of RMB1,189,000 (2020: RMB2,720,000) that are available indefinitely for offsetting against future taxable profits of the companies in which the losses arose.

Deferred tax assets have not been recognised in respect of the above items as they have arisen in subsidiaries that have been loss-making for some time and it is not considered probable that taxable profits will be available against which the above items can be utilised.

Pursuant to the PRC Corporate Income Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in Mainland China. The requirement is effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between Mainland China and the jurisdiction of the foreign investors. For the Group, the applicable rate is 10%. The Group is therefore liable for withholding taxes on dividends distributed by those subsidiaries established in Mainland China in respect of earnings generated from 1 January 2008.

As at 31 December 2021, no deferred tax liability has been recognised for withholding taxes that would be payable on unremitted earnings of the Group's subsidiaries established in Mainland China. In the opinion of the Company's directors, it is not probable that these subsidiaries will distribute such earnings to foreign entities in the foreseeable future. The aggregate amounts of temporary differences associated with investments in subsidiaries in Mainland China for which deferred tax liabilities have not been recognised totalled approximately nil (2020: Nil).

27. RESERVES

The amounts of the Group's reserves and the movements therein for the year are presented in the consolidated statement of changes in equity of the Group.

Capital reserve

The capital reserve of the Group represents the aggregate paid-up capital of the subsidiaries comprising the Group.

Share premium

The application of the share premium account is governed by the Companies Law of the Cayman Islands. Under the constitutional documents and the Companies Law of the Cayman Islands, the share premium is distributable as dividend on condition that the Company is able to pay its debts when they fall due in the ordinary course of business at the time the proposed dividend is to be paid.

Statutory surplus reserves

In accordance with the Company Law of the PRC, certain subsidiaries of the Group which are domestic enterprises are required to allocate 10% of their profit after tax, as determined in accordance with the relevant PRC accounting standards, to their respective statutory surplus reserves until the reserves reach 50% of their respective registered capital. Subject to certain restrictions set out in the Company Law of the PRC, part of the statutory surplus reserves may be converted to increase share capital, provided that the remaining balance after the capitalisation is not less than 25% of the registered capital.

Financial liabilities — at amortised cost

	2021 RMB'000	2020 RMB'000
Trade payables	12,136	13,129
Financial liabilities included in advance from customers, other payables and accruals	21,350	13,384
Lease liabilities	17,946	22,924
Interest-bearing bank and other borrowings	203,722	187,781
	255,154	237,218

Management has assessed that the fair values of cash and cash equivalents, pledged deposits, trade receivables, amounts due from related parties, trade payables, financial assets included in prepayments, deposits and other receivables, financial liabilities included in advance from customers, other payables and accruals, and the interest-bearing bank and other borrowings approximate to their carrying amounts largely due to the short term maturities of these instruments.

The Group's finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance department reports directly to the finance manager. At each reporting date, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the finance manager. The valuation process and results are discussed with the directors once a year for annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

32. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

The Group invests in listed equity investments which are based on quoted market prices. The Group invests in unlisted investments, which represent financial products issued by commercial banks in Mainland China. The Group has estimated the fair value of these unlisted investments by using the valuation technique based on the direct capitalisation method, interest rates of instruments. The fair value of these unlisted investments are the sum of principal and interest receivable.

The following table illustrates the fair value measurement hierarchy of the Group's financial instruments:

As at 31 December 2021

	Fair value measurement using			Total RMB'000
	Quoted prices in active markets (Level 1) RMB'000	Significant observable inputs (Level 2) RMB'000	Significant unobservable inputs (Level 3) RMB'000	
Financial assets at fair value through profit or loss	13,174	–	–	13,174

As at 31 December 2020

	Fair value measurement using			Total RMB'000
	Quoted prices in active markets (Level 1) RMB'000	Significant observable inputs (Level 2) RMB'000	Significant unobservable inputs (Level 3) RMB'000	
Financial assets at fair value through profit or loss	–	1,000	–	1,000

The Group did not have any financial liabilities measured at fair value as at 31 December 2021 (2020: Nil).

During the year, there were no transfers of fair value measurements between Level 1 and Level 2 and no transfers into or out of Level 3 for both financial assets and financial liabilities (2020: Nil).

33. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise interest-bearing bank loans, cash and cash equivalents and pledged deposits. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial assets and liabilities such as trade receivables and trade payables, which arise directly from its operations.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The interest rates and terms of repayments of the bank loans are disclosed in note 24.

The Group has not used any interest rate swaps to hedge its exposure to interest rate risk. The Group does not consider that it has any significant exposure to the risk of fluctuation in the interest rate as a reasonable possible change of fifty basis points in the interest rate would have no significant impact on the Group's loss for the year.

Credit risk

The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant. For transactions that are not denominated in the functional currency of the relevant operating unit, the Group does not offer credit terms without the specific approval of the President and the Chairman.

* For trade receivables to which the Group applies the simplified approach for impairment, information based on the provision matrix is disclosed in note 18 to the financial statements.

** The credit quality of the financial assets included in prepayments, other receivables and other assets is considered to be “normal” when they are not past due and there is no information indicating that the financial assets had a significant increase in credit risk since initial recognition. Otherwise, the credit quality of the financial assets is considered to be “doubtful”.

Further quantitative data in respect of the Group’s exposure to credit risk arising from trade receivables, and prepayments, other receivables and other assets are disclosed in notes 18 and 19, respectively, to the financial statements.

Liquidity risk

The Group monitors its risk to a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both its financial investments and financial assets (e.g., trade receivables and other financial assets) and projected cash flows from operations.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of interest-bearing bank loans and lease liabilities.

The maturity profile of the Group's financial liabilities as at the end of the year, based on the contractual undiscounted payments, is as follows:

	2021					Total RMB'000
	On demand RMB'000	Less than 3 months RMB'000	3 to 12 months RMB'000	1 to 5 years RMB'000	Over 5 years RMB'000

Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2021 and 31 December 2020.

The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. Net debt includes interest-bearing bank loans, trade payables, advance from customers, other payables and accruals, and lease liabilities, less cash and cash equivalents and pledged deposits. Total capital represents equity attributable to the owners of the parent. The gearing ratios as at the end of each of the reporting periods were as follows:

	31 December 2021 RMB'000	31 December 2020 RMB'000
Interest-bearing bank and other borrowings	203,722	187,781
